FACTS: ANALYSIS OF BREAKFAST FOODS — Fat

Malt Breakfast Foods	1.03
Force	1.27
Malta Vita	1.25
Grape Nuts	0.55
ROLLED OATS	7.21

On the whole, I am of opinion that as a well balanced material for porridge, these analytical results justify me in claiming a very high, if not the highest place for oatmeal, and especially in the form of ROLLED OATS.
A. McGILL, Assistant to Chief Analyst, Ottawa.

Murder Was Deliberate

No Trace of Stick or Stave Near Where the Victim's Body Was Found.

Other Evidence Which Tend to Disprove Some Statements of Accused.

Further Details Gleaned by the Police Regarding Crime at Naval Yard.

Further investigation of the tragedy which occurred on Saturday morning at the naval yard at Esquimalt, goes to show that a wilful murder was committed by Alfred J. H. Frith. In his confession to the provincial police he told of Bailey, the victim of his revolver, having picked up a piece of board, and after discarding that, a barrel stave, with which the dead man threatened, and he shot and killed him in self defence. An examination of the scene of the tragedy—which has been left as it was when the murder took place—reveals the fact that there is no piece of board, no barrel stave, or anything whatever that might be converted into a stick or club of any kind for purpose of attack, and furthermore it has since developed that the dead man held the key of his own store, some distance from that in which he was killed, in his hand when he was murdered. Had he picked up any stick or stave, as alleged, it seems unlikely that he would retain his grasp of this key.

As far as can be learned of the actions of both the murderer and his victim, it seems that Frith, who was discharged from the naval yard on the 19th and allowed to remain at his residence there till the end of the month in order to make ready for departure, had gone to B Store, near the wharf of the naval yard, of which Bailey was in charge. Frith was seen going there about 7:45 a. m. The majority of the staff of the yard were on leave, the previous day having been a holiday, and the men secured leave over the Saturday. Of the staff at Mr. Bailey's store, only the Chinaman remained other than the storekeeper. It has been shown that Frith went to Bailey's office, presumably to ask him for a packing case—not an extraordinary request, considering the fact that Frith was engaged in packing up his household goods. The two men were seen going to the store in which the murder occurred by one of the yard employees at 7:40. No one is known to have seen them enter the place.

Outside one of the two doors of the storeroom in which the tragedy took place, which is about 60 feet long, and adjoins the sail loft, is a packing case. Mr. Payne, storekeeper in charge of the building, who was absent at the time of the tragedy, on leave, says he believes this to be the packing case, which Frith stated in his confession to the police had been taken from the building and placed outside that door, which is fastened only by locking on the inside, the entry being solely by the other door toward which the two men went after putting the packing case outside and locking the further door. Inside the building, near the door toward which they went to leave the place, is a pile of stores, and there is a narrow passage way of not more than two feet six inches or three feet, between two scaffold-like benches used for the storage of goods and the stores. Long coils of rope are stretched along here, and just beyond the stores which are heaped high to within six or seven feet of the door, the rope is coiled in higher heaps.

On this rope, which is not heaped high on the outskirts of the heap, the victim of Frith's revolver was found stretched out, toward the door, as though he had been shot and killed while walking over the rope stretched across the floor to the door of the storehouse. There was not room for the two men to walk together along the passage way from the part of the store whence they put the packing case out, and everything goes to show that Bailey was walking along in advance of Frith toward the door. The murderer walked along behind, and whether the conversation which he states took place, did occur as stated there is no one other than he who is in a position to say. His statement regarding Bailey having picked up a club, seems to be disproved by the fact that if such had been the case this club would have been lying near the corpse—which was not the case.

The position in which the body was found is not such as one would have looked for had there been any happening such as that indicated by Frith in his statement, for he says that Bailey turned, with a barrel stave in his hand toward him, and he shot him as he turned his head. The murdered man was found lying face downward on the edge of the coils of rope. It was not flatly face downward, resting slightly on the left shoulder. The arms were underneath the body, and in the left hand was the key of the wicket gate in the larger gate of his storehouse, which is nearly a hundred yards from that where he was murdered.

The bullet with which the murder was committed is of 38 calibre, from a bulldog revolver. The bullet has been flattened somewhat by the impact. That the shot was fired from a short distance—and Frith says he fired from a distance of five feet—is shown from the fact that the victim's head was terribly torn, the bullet having torn and broke the greater number of the blood vessels of the head, before leaving through a hole cut in the forehead just above the right eye. Dr. Humes, hospital surgeon of the Royal Navy, who made the post mortem examination, is of the opinion that the shot was fired from a distance of a few inches from the back of the head, probably at a distance of four inches. The damage done by the weapon was so great that when the body was discovered, after Sergeant Lough jumped in at the window a short distance from where the body lay, it was thought by all those who saw the remains that the head had been bashed in by a club or iron bar, and it was not until closer examination was made in the afternoon of Saturday after Frith had confessed his crime, that it was known that death had resulted from a revolver shot.

It is known that Frith had one or two drinks in the morning previous to his visit to Bailey, but he was rational, and, as far as is known, in his ordinary senses. From his statement it would seem that he harbored a grievance against Bailey, whom he accused of undermining him and securing his dismissal, and whether a sudden attack of murderous insanity or an ungovernable outburst of temper resultant from the nursing of his fancied grievance against the dead man, impelled him to snatch the pistol from his pocket and commit murder, there is nothing to show. He himself, says he and the dead man had warm words over the alleged undermining.

As will be remembered when Frith left the storehouse, leaving his victim lying weltering in his blood, he locked the door. The key of the warehouse, which is seven inches long, is missing, and it is believed that Frith did away with the key, as he did with his weapon. Search is being made for the key by the police, so far without result. Through the services of the navy—and Admiral Bickford has given instructions to all officers to aid the police in every way—a diver will be sent down today at the end of the naval wharf where the revolver was thrown overboard by the murderer, to endeavor to locate the weapon. As there are four or five feet of mud there the task will be a difficult one.

The horror of the tragedy is still on the naval village where both men have worked for years. Both Bailey and Frith are well spoken of, but latterly Frith has been drinking more or less, and, it was owing to this that he was at first suspended, and later discharged from the naval yard. His dismissal took place on the 19th, and he was to leave the yard at the end of June. While he was not working he walked about the yard as usual, and his goings and comings excited no comment whatever, in fact it is generally believed at Esquimalt that had he not confessed his deed to Provincial Officer Dan Campbell, no one would have suspected that he had killed Bailey. As the constable gave evidence at the inquest, he found it difficult to believe Frith when he said he had killed Bailey, and did not arrest him at once, for until he had investigated and found that Bailey was missing, he could not believe that Frith had been guilty of the crime. So it was with everyone who knew the man at Esquimalt.

Since his arrest, Frith has been cool and quiet, betraying no emotion. Mrs. Frith and family, who are at their cottage in the naval yard, hardly realizing the horrible blow, are the object of much sympathy, as is also the wife and family of the murdered man. Mrs. Bailey has been prostrated since the occurrence. The funeral of Bailey will take place this afternoon from his late residence on the Esquimalt road, and it will be attended by the members of United Service lodge of A. F. & A. M., of which the dead man was a past master.

The provincial police are busy securing evidence, Sergeant Murray and Constable Campbell investigating all the circumstances and securing what evidence is to be secured ready for submission to the court. It is probable that the case will be brought on today, when Frith will be charged with wilful murder.

Extension Of Great Northern

Application Made to run Branch Line Through Streets at Vancouver.

Fishermen's Union Issues Strike Notices and Japanese Prepare to Work.

Premier McBride Predicts Victory for the Conservative Party.

From Our Own Correspondent.

Vancouver, June 29.—President John Hendry, of the Vancouver, Westminster and Yukon Railway, which is a branch of the Great Northern, made formal application to the City Council today for rights along False creek and across the city streets. President Hendry assures to the city direct railway connections for Vancouver with the American system of railways.

The following notice was issued today: "The British Columbia Fishermen's Union hereby declares a strike, to go into effect July 1, 1903. Signed, H. S. Butterfield, secretary." Nearly 2,000 Japanese fishermen have gone to the Skeena river to fish, and 1,000 Japs are ready to fish tomorrow for the prices offered by canners. Another thousand Japs are to hold a meeting July 8 to decide.

Word has been received from Westminster that Walter Combs, aged 19, and Ethel Miller, aged 17, were drowned while bathing in the Nikemekl .

Mr. Walker, who is assisting Mr. D. Donaldson in collecting votes for the provincial voters list, lays claim to the record for the province, and perhaps for the Dominion, in taking the largest number of votes in two hours. Mr. Walker registered 128 applicants in 120 minutes, which is rather better than one a minute. When it is taken into consideration that a blank has to be filled out with the answers to several questions, that the applicant has to be sworn and sign his name, the title of champion vote-taker of the province will readily be accorded to Mr. Walker. The total number of names registered at 9 o'clock Saturday night was 3,234. This of course includes votes picked up at the newspaper offices, on the streets and in the political committee rooms. For personal attendance is not necessary in registering votes. A week ago last Saturday 92 votes were registered at the Conservative club and last Saturday 96. Any one competent to administer an oath can collect a vote and hand it over to the provincial collector, Mr. Donaldson. Quite a number of men working in the camps up the coast have come in to register their votes, and have been denied owing to their not having been one month in the province.

It is rumored that the Great Northern Telegraph Company are to build from Dawson to the boundary and connect with the American line to Valdes and with the projected cable to Sitka and Seattle. The G. N. W., according to their charter, can build their lines anywhere in Canada. The G. N. W. would thus be a most serious rival in the telegraph business in Canadian and American Alaska. The Dominion line is now being repaired between Atlin and the boundary between Atlin and Ashcroft. It is said that owing to hurried construction the line will practically have to be rebuilt from Hazelton half way to Telegraph Creek.

Peter Otto has left town suddenly. He came to Vancouver without money and started a grocery. He gave out that he had $5,000 cash, and was believed by wholesalers, who trusted him. He agreed to do all sorts of things on the 1st of July. But he will not be here to do them. All unsecured creditors lost their money.

Mr. Chas. Thulin, of the Malispino hotel, has donated to the Tourist Association one of the original life boats belonging to the historical steamer Beaver.

The members of the local Plumbers' Union have withdrawn from the Trades and Labor Council.

Since June 1, $3,000 has been collected on account of the provincial revenue tax.

A boy of 14 years has been arrested for robbing the bathers at English Bay. He appears to have had a false key, by which he entered the dressing rooms in the bathing house and extracted the money from the clothing of the bathers.

Mr. John Murray, forest ranger for the provincial government, has been commissioned to make a survey of the timbered country lying between Quatsino Sound and the east coast of Vancouver Island. The purpose of the survey is to determine the exact nature of the forest growth in this section, in order to settle some points which have arisen as to the delimitation of pulp limits and the adaptability of the wood.

Premier McBride was in Vancouver Saturday. His progress was slow through the streets owing to the number of people who made urgent demands upon his valuable time. In one instance where he wanted to speak to an intimate friend, he beckoned him down a side street, that they might have an uninterrupted moment together. Mr. McBride said to the Colonist correspondent that the Conservative party in Victoria was united; that already there was a very fair organization throughout the province, and from one end of British Columbia to the other he was receiving resolutions from Conservative societies endorsing the government, while he had received encouraging news to the effect that many well known Liberals had made up their minds to support the government.

The Pacific Northern Cannery Company of Naas River is the last enterprise to be promoted by Mr. Carlyle, the well known insurance man. Mr. Carlyle promoted the Vancouver Fish Company on False Creek, the Western Canada Fishing Company at Burnett, and now has the satisfaction of seeing the third company on Naas river ready for business.

Mr. Collier, an Englishman, formerly secretary of the canning company in which Mr. R. Kelly and associates were interested, secured a sein license for a portion of Naas river, and, what was more important, a silent partner with $35,000. The cannery will be in operation this season, and will be the first cannery in which a pack will have been put up from sein fishing alone.

The Vancouver Fish Company, on False creek, are waiting for a few sections of machinery only before starting active operations. The company's business is in that satisfactory condition which enables them to announce that their orders ahead for British Columbia sardines will keep them running on sardines continuously for the future, with every prospect of the continuous growth of this branch of the business. It is too early for crabs at present, as at this season of the year they are watery and unpalatable. There is, however, a ready demand for crabs in season.

APPEAL ALLOWED.

Protest Against McKay, North Grey, Will Now Go to Trial.

Toronto, June 29.—The court of appeal today delivered judgment allowing the appeal of M. Boyd, the defeated Conservative candidate, against the dismissal of his protest against the return of A. G. McKay, in North Grey, in the provincial by-election of January 7 last. Judge McLennan had dismissed the appeal on a technicality.

BRITISH SQUADRON HONOR AMERICANS

Channel Fleet Will Assemble to Receive United States Warships.

Washington, June 29.—The United State department has been advised that the governments of England and Portugal are making ready to shower hospitality on the American European squadron.

King Edward has arranged to give a grand ball on July 8 in honor of President Loubet, and the American naval officers attached to the squadron will be invited to meet the President. On the following day the King will give the officers a banquet in Buckingham Palace. The Admiralty will make a magnificent marine spectacle of the entire vast British Channel squadron, which has been ordered to assemble at Spithead to welcome the little American squadron when it comes to Portsmouth from Kiel. It appears that the invitation to the squadron to visit Lisbon was tendered directly by the King of Portugal, so that the reception will be most formal and official in character.

MANCHURIAN QUESTION.

Washington, June 29.—It is indicated today that the Manchurian question may be permitted to rest temporarily so far as action at this end of the line is concerned since Secretary Hay has left the city for a two weeks' vacation and Count Cassani the Russian ambassador is about to sail for Europe.

THE BESSEMER MEMORIAL.

London, June 29—An influential meeting took place at the Mansion House today to discuss the erection of a memorial to Sir Henry Bessemer, the English inventor, towards which Andrew Carnegie recently promised to make a substantial subscription. It was resolved that the memorial take the form of completely equipped metallurgical teaching and research work to be located in London.

TECHNOLOGICAL EDUCATION.

Earl Rosebery Presents Plan of Great Institution in London.

London, June 29.—The Earl of Rosebery has written to the chairman of the London County Council submitting a plan for the establishment of a great institution for advanced scientific and technological education at a cost of $1,500,000 toward which sum Wernher, Beit & Co., the well known diamond firm, and others offer large contributions. A site for the institution has also practically been secured. Lord Rosebery asks the council for an annual grant of $150,000 for the maintenance of the institution, upon securing which the whole scheme depends.

In his letter submitting the proposal, Lord Rosebery says: "It is little short of scandalous that our ambitious youths should be obliged to resort to the United States and Germany for technical training."

He points out that English industries are suffering in consequence of the neglect of this important branch of education in the United Kingdom.

DEVELOPING NEW B. C. COAL FIELDS

Work Started on Measures at North Fork of Kettle River.

Grand Forks, June 29.—Wm. Blakemore, consulting mining engineer of Montreal, left here today for the purpose of prosecuting development in British Columbia coal fields, situated at the North Fork of Kettle river, 60 miles north of Grand Forks. He was accompanied by eight local miners whom he recently engaged at Fernie. As soon as the preliminary prospecting work is concluded, the opening up of the five foot seam on the Wiseman claim will be taken in hand, and a diamond drill plant will be installed. Four seams crop out on the company's land, which embrace over 12,000 acres.

In addition to the big string of runners entered for the races here July 1 and 2, a carload of five trotters reached here today from Spokane. The new arrivals will make a grand race in the free-for-all trot or pace, distance one mile, best 3 in 5 heats. The trotters, and their respective records are as follows: Sam Bowers, 2:11; Le Roi, 2:10¼; Doc Bunnelle, 2:16¼; Umatilla, 2:22½; Starkey, 2:14½. A large number of Spokane people have wired here to have rooms reserved for them.

Exploiting Kaslo's Find

Thirty Thousand Dollars Has Been Offered for Choice Location.

Pioneers of the Rush Now Returning Loaded With Good Specimens.

Two Prospectors Reported Lost Succeeded in Making Trail.

Special to the Colonist.

Kaslo, June 29.—P. H. Gray, who, along with his partner, M. Gautnier, were reported lost while on their way to Poplar creek gold fields, turned up here today, having found their way to Trail again on Friday. They report having a very hard and difficult trip, but claim to have struck some excellent ground near to where very rich ore has been taken out. They have three claims, one of which adjoins the Kelly group, for which offers of $30,000 have been received. Messrs. J. J. Reuter, Al Palmer, W. Moulse, Jas. Specis and M. Ricard, all of Kaslo, are highly elated over their success in getting splendid locations. They will be down on the C. P. R. tonight loaded with samples, and the local assayers will be kept busy for several days, and their return will be anxiously awaited. The good luck of Hodgson and Attwood, who located the ground that was rejected by old prospectors, and which turned out upon investigation to be a bonanza, is commented on in the most congratulatory terms. An outfit from Trout Lake vicinity have opened a store on the flat at the mouth of Poplar creek. A gathering of tents has begun already. No liquor is being sold, as the laws are very strict and are rigidly enforced. It is promised by the C. P. R. authorities that the road will be running in 10 days. Pack and other animals are very scarce. The few on the ground are being constantly occupied. Joseph Carlon, an experienced placer miner, who spent some years in Cariboo 30 years ago, and who prospected all around Dease lake, in Northern British Columbia, is representing a small syndicate organized for the purpose of exploiting the Poplar creek ground. It is intended to also operate a long bench near Dease lake that Mr. Carlon worked years ago, getting 50 cents and upwards to the pan. He was driven out by the Indians at that time and has always intended to return.

COUNT BONI'S ELECTION.

Paris, June 29.—The Chamber of Deputies today adopted the report of the committee validating the election of Count Boni De Castellane. M. Hubbard (Radical Socialist), said it was to be hoped that a general law against electoral corruption would soon be passed.

WILL RECOVER.

Port Arthur, Ont., June 29.—Engineer Streton, who received serious injuries while leaning out of the cab window, his head coming in contact with a rock embankment on Saturday night, has recovered consciousness and will probably recover.

CONVICTION SUSTAINED.

Christian Scientist Held Guilty of Manslaughter in Toronto.

Toronto, June 29.—The court of appeals gave judgment today in the case of the King vs. James Henry Lewis, Toronto. Roy, the little son of Lewis, contracted diphtheria and died on August 13 last. The father, a Christian Scientist, was charged with manslaughter under the Criminal Act, for neglect to provide necessary medical treatment and assistance. Lewis' conviction for manslaughter was sustained.

LADYSMITH STRIKE ABOUT BROKEN

Failure of Western Federation to Provide Funds Leads to Break.

From Our Own Correspondent.

Ladysmith, June 29.—Moore, the organizer for the Western Federation of Miners, arrives tomorrow morning, and it was hoped would have funds to distribute, but a telegram received this afternoon by a leading miner from Moore says that he cannot hold out any hope of relief. The foreigners swear that if this is the case they will go back to work anyway.

Tom Wilson, a Socialist leader of the local union, admitted today that the strike is broken and that the union is defeated hopelessly. A mass meeting of the miners takes place tomorrow morning in Gould's Hall to decide as to the 50 cents on the miner's coal.

It is announced that a work train will leave Ladysmith for Extension on Thursday morning at 6 o'clock for all miners who care to go to work, and trains will be run thenceforth regularly.

The two Italian miners convicted of brutally assaulting another Italian miner last Saturday morning, were fined $20 and costs each or 60 days in jail.

A farewell social to Martin Dunsmuir, an old and well known Wellington miner, lately resident here, was held in Gould's Hall here on the eve of his departure for Scotland. There was a very large gathering.

Donald Nicholson, a well known Ladysmith contractor, leaves on Wednesday morning with his wife and family for a visit to his old home in Cape Breton, on a three months' trip.

The yacht Wideawake, Commodore Pearse, of the Victoria Yacht Club, with a large party of Victorians on board, arrived here this afternoon. It spent some time in the harbor before sailing.

Ladysmith Conservatives held an organization meeting in Capt. Dillon's Hall this evening. P. H. Marshall presided. There was a large and enthusiastic attendance. The following officers were elected: President, Capt. Henry M. Dillon; secretary, Hartley Gisburn; treasurer, Mr. Cairns of Cedar, who was recently mentioned as a probable Conservative candidate for the Newcastle district. It was decided to push forward organization as rapidly as possible. All present are confident that the Conservatives can carry this district.

Craigflower School—The Fiftieth Anniversary of Its Foundation.

TO ENQUIRE INTO PRICES OF LUMBER

Commission Issued at Ottawa to Investigate Alleged Combine.

Special to the Colonist.

Winnipeg, June 29.—Information has been received from Ottawa that Mr. Justice Richards has been commissioned to inquire into the charge that lumber dealers have formed a combine in restraint of trade. This action was taken by the Dominion government upon assurances made to it by Hon. Thos. Greenway during his recent visit to the East. The work of the commission will begin at the earliest possible moment.

Judge Dubac gave judgment today refusing an application for mandamus to compel revising officer Bonnar to reopen the voters' list for Centre Winnipeg.

VANDERBILT'S HORSE WINS.

Paris, June 29.—W. K. Venderbilt's Bright, with "Nash" Turner up today, won the prix du conseil municipal, $2,400.

INCREASE OF GARRISON.

More United States Marines Required in Case of Trouble in China.

Washington, D. C., June 29.—Rear-Admiral Evans in a report to the American navy department has again called attention to the necessity of maintaining an adequate force of marine at Olongapo in the event of an emergency in China. He regards the internal unrest there with a apprehension and recommends that the force of marines at Olongapo be increased from 1,000 to 1,500.

BAD HABIT
Is that of mixing drinks but
A GOOD HABIT
Is that of mixing your drinks with
Thorpe's Pale Dry Ginger Ale.

GOVERNMENT IS SILENT

Declines to Reveal its Policy on Transcontinental Problem.

Ottawa, Ont., June 29.—The Commons was engaged nearly all day on the Canada Northern guarantee bill, and discussion developed the fact that the government was retaining in its own hands considerable discretion in the handling of money. The terms of the mortgage and manner of which the sale of bonds are to be handed over to the company is to be left entirely to the control of the Governor-in-council.

R. L. Borden, Clarke and J. Israel Tarte pressed for a declaration of the government's policy regarding the transcontinental problem, but without success.

A proposal of the Senate that witnesses before the boards of conciliation in railway disputes should be entitled to fees was rejected.

A bill affecting salaries was under consideration, but was postponed. The government bill to amend the Criminal Code makes it a criminal offence to discharge militiamen for leaving employment.

It was made a criminal offence to sell cigarettes or tobacco to miners under 18 years of age, a clause which includes combinations in restraint of trade was made more effective. Any person making a condition that a dealer should handle no goods but his own is liable to a fine and imprisonment.

The Manitoba government took suit against the Dominion for the Dominion having used the proceeds from swamp lands before they were conveyed to the province. The Exchequer court held today that the Dominion had the right to this, and until such time as these lands were transferred by order-in-council.

Mr. Cloran, of Montreal, will likely be appointed Senator at today's meeting of the cabinet.

J. K. Barrett, inspector of inland revenue for the Winnipeg district, has been, in addition to his present position, appointed inspector of malt houses and breweries of the Dominion.

An order-in-council has been passed giving the Minister of Inland Revenue power to issue licenses for the manufacture of beer and other malt liquors in the Yukon.

FLIRTED WITH DEATH.

Accident to Auto Car Causes Injury to Bride and Groom.

Paris, June 29.—Lieut. Marshall Roberts, of the Scots Guards, son of Mrs. Ralph Vivian, formerly Mrs. Marshall Roberts of New York, who was married to Miss Helen Murray, daughter of Sir Geo. Murray, in London, on June 23, was making an auto trip from Paris to Fontainebleu, with his bride today when they met with an accident, and both were thrown out of the motor car. They were badly, though not fatally hurt.

MANY ARE IDLE.

As a Result of Shut Down of Butte Mines and Smelter.

Butte, Mont., June 29.—The big smelter of the Amalgamated Copper Company at Anaconda, was shut down today for an indefinite period, throwing 1,500 men idle. The company announces that the shut down is for the purpose of making repairs, but the men allege it is done to forestall a probable strike for higher wages on July 1. The mines at Butte, from which the Anaconda smelter drew its ore, will close tomorrow, affecting more than 2,000 men.

RACING AT KIEL.

Americans Make Good Showing in Contest With Germans.

Kaiserlicher, Yacht Club, Kiel, June 29.—The American men-of-warsmen won two first, a second and a third in today's races against the boats of the German fleet. The Americans had five boats entered in four events, while the Germans had 37, and the American crews were not familiar with the course and had not specially trained for the races. The closest contested one, which attracted most attention from the men-of-warsmen, was that between the large launches.

LOOK ON THE BRIGHT SIDE.

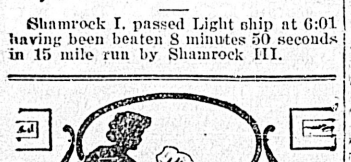

The sufferer from nervous exhaustion is generally blue and discouraged. He looks on the dark side of things and fears paralysis, locomotor ataxia or insanity. All this is changed by the persistent use of Dr. Chase's Nerve Food, which gradually and naturally rekindles and revitalizes the wasted nerve cells and instils new vigor and energy into the whole system.

RELIANCE IS WEATHER BOAT

Thirty Mile Run Yesterday in Stiff Breeze Shows Her Speed.

Newport, R. I., June 29.—The new cup yacht Reliance proved today her worth as a heavy weather boat when she defeated the Columbia and Constitution in a stiff easterly breeze and lumpy sea over a 30-mile course, 15 of which was a beat to windward. The newest Herreschoff creation sailed the course in 4 minutes 9 seconds less than did the Columbia, and 4 minutes 58 seconds less than the Constitution. All the racing in which these boats have participated up to today has been in light weather and smooth water, but this afternoon there was a smashing breeze blowing and considerable jump to the water, conditions that are exactly suited to the Columbia. The old cup defender sailed a grand race, reaching the windward mark only 1 minute 56 seconds astern of the Reliance, and 1 minute 31 seconds ahead of the Constitution. On the run home, however, the Reliance pulled away steadily from both her opponents, while the Constitution gained on Columbia. Today's race was the first of a series given by the New York Yacht Club, and there will be a race every day this week. The run home showed that though the Constitution is a very swift craft down the wind, the Reliance is even better in conditions which prevailed today. While the Belmont boat picked up several seconds on the Columbia, the official summary shows the Reliance beat her.

Shamrock I. passed Light ship at 6:01 having been beaten 8 minutes 50 seconds in 15 mile run by Shamrock III.

There are very few cleansing operations in which Sunlight Soap cannot be used to advantage. It makes the home bright and clean. 1B

FIRE AT ST. KITS.

St. Catharines, June 29.—Fire at an early hour this morning did $35,000 damage to the dye house of the Empire Carpet Company.

CORBETT GETS DECISION.

Boston, June 29.—Young Corbett of Denver, champion featherweight of the world, won the decision over Jimmy Briggs of this city tonight in their 10-round bout at the Criterion. Corbett was unable to put Briggs away, as the Boston boy met him at every turn, and by clever blocking and footwork managed to stay the limit.

NEW PENNA ISSUE.

Philadelphia, June 29.—As the stock was of the new Penna issue offered at $60 per share, the issue of 1,500,000 shares represent to the company a cash value of $90,000,000, from which must be deducted about $2,500,000 in commissions to the underwriters. From the proceeds of the new stock issue will also be repaid a temporary loan of $40,000,000, made early in the present year, leaving approximately $38,500,000, as according to the official statement made today $81,000,000 of $90,000,000 has been paid in.

BIG FLOOD NOW ON AT ATLIN CAMP

Hot Weather Causes Freshet Which Does Much Damage to Claims.

The Skagway Daily Alaskan of June 20, gives particulars of a big flood which has worked great damage to claims in the Atlin district. The hot weather of a week ago was welcomed, as it opened navigation, but unfortunateiy the good it has undoubtedly done in that respect has been more than outdone by the loss and damage it has entailed to the miners on the creeks, by rapid rising and flooding of these creeks.

From information to hand it is learned that the high water has more or less affected every creek in the district.

The miners on Boulder creek have suffered more than on any of the others. The creek rose with such rapidity and without warning that it was impossible to save anything from the seething waters. On Monday evening, June 12, the creek bed looked as if it had never been disturbed by the hand of man. None of the miners on the creek escaped, while the hydraulic companies at the upper end suffered very severely, and it will take some weeks to repair the damage which was wrought in a few hours.

On Spruce creek in some instances the work of the last two seasons has gone for naught, and wingdams and headdams were carried down the creek like so much matchwood. Anderson Bros., Hall and Bullette have suffered very heavily. The last two named have had nearly all their machinery buried under tons of debris. All the foot bridges and nearly all the wheels that have been set have been carried away. The damage cannot well be estimated, as the short working season cannot stand such encroachments on its time for repairs, which is foreign to actual mining.

Owing to the absence of miners on the bed of Pine creek, practically no damage was done, while Otter and Wright also escaped. Birch creek came in for its share of the torrents, but to what extent has not yet been advised.

DEATH'S HARVEST IN RAILWAY WRECK

Train Fell From Bridge Into River Thirty Were Killed and Many Injured.

Madrid, June 29.—Fourteen bodies and 50 injured persons have been extricated from the wreck of the Bilbao train, which overturned at Nejerilla river last night.

According to official information, 30 persons were killed and 50 others seriously injured. Many of the latter will die. Of the 300 passengers on the train, it is stated that only six escaped unhurt. The train, which was composed of two engines and 16 coaches, was crossing the bridge when the couplings between the engines broke. The second engine left the track and fell, followed by the entire train, into the bed of the river. Fortunately the water was low. The nearest medical attendance was a mile and a half distant, and those passengers who were least injured aided the others and did all possible until the arrival of relief trains bringing nurses, doctors and soldiers from Bilbao.

The train fell 50 feet from the bridge to the river bed, the coaches piling up in a mass of splintered wood and ironwork. The scene is described as horrifying. Many corpses were carried down the stream, which was actually reddened with blood. It was found impossible to extricate numbers of the injured who were pinioned under the wreckage. A railway guard was arrested in the act of robbing the dead and narrowly escaped lynching.

It is believed that the official figures underestimate the number of killed, some accounts giving the number of dead as 100. The full extent of the catastrophe will be known only when the wreckage has been cleared away.

WEARIED OF LIFE.

Hamilton, June 29.—Joseph Jeffry, who for a long time conducted the Hamilton City Laundry, but who lived a retired life for the past couple of years, committed suicide today by shooting himself. He was about 60 years old, unmarried, and very popular. Heavy recent losses in manipulations are said to have worried him.

NEW ZEALAND VISITORS.

Member of the Upper House on Way Round the World.

Hon. J. T. Peacock, of Christ Church, New Zealand, accompanied by Mrs. Peacock, Miss Hale and J. A. M. Peacock, are a party of globe-trotters, who registered at the Hotel Davies yesterday. Hon. Mr. Peacock is a life member of the Upper House of the New Zealand legislature. He states that New Zealand has just reaped a splendid harvest, the crops being the best yet recorded in that part of the world. New Zealand in consequence is looking forward to a very prosperous year. Hon. Mr. Peacock was disinclined to express any opinion on any of the political economic or fiscal problems at present engaging the attention of New Zealanders, as he is traveling purely for rest and enjoyment. He expressed himself as being charmed with the picturesqueness of Victoria, having enjoyed a drive yesterday afternoon through a portion of the suburbs, and intending today to take in all the attractions of the city and its environments. He was delighted to feel after a long journey across the Pacific that he was still under the protecting folds of the same old flag.

After leaving Victoria, the New Zealand party now visiting the city will go east via the C. P. R., making stops at Banff, Winnipeg, Toronto and Montreal, and then taking a liner from New York to the Old Country. A visit will be made to the Continent, after which they will likely take the Suez route to their home in the Antipodes.

PLEASED CROWD AT THE OPENING

The Delightful Summer Garden Concerts Were Inaugurated Last Evening.

Patronized by a large and thoroughly pleased crowd of visitors, the charming Douglas summer gardens—rehabilitated and improved and ablaze with electric lights—were thrown open for the season last evening. It is estimated that fully 1,200 people were in attendance, and this, considering that the evening was Monday, when people have had a surfeit of recreation on Sunday, speaks well for the "drawing" capacity of the attraction. While a somewhat chill wind blew from the bay, it was noticed that no discomfort was felt at all by the big crowd within the gardens, the big trees with their wealth of foliage and the high fences, furnishing adequate protection.

The programme as published in full in the Colonist on Sunday morning, was given in its entirety, and proved quite the treat anticipated. The playing of the Fifth Regiment band was thoroughly enjoyable, Victoria's favorite musical organization coming in for a large share of applause. The berescope pictures were considered the finest moving pictures yet exhibited in Victoria, and afforded keen delight to the large audience present. The vaudeville attractions were quite up to what was promised. Charles Orr was heard in illustrated songs, which evoked much applause; little Marjorie Madeline, the child contortionist, was seen in some really new contortionist feats, and Mr. Lyons, the baritone singer, sang some very pretty ballads. There was a big demand for refreshments and a thoroughly enjoyable evening was had. The gardens will be open each week day evening, and the admission fee is only 10 cents.

SCHOOL BOARD MEETING.

Many Important Matters Considered by the Trustees Last Evening.

The Board of School Trustees held the final meeting of the year last evening at the office of the Board, a full attendance being present. Among the communications read were three applications for appointment as teacher of domestic science. Another communication was from City Clerk Dowler, transmitting a copy of City Barrister Taylor's opinion respecting the conflict between the provisions of the Municipal Clauses Act, and those of the Education Act, in relation to the Money Bylaws for school buildings. This was laid on the table to be dealt with at a later stage of the meeting.

Fire Chief Watson wrote making certain recommendations in regard to the facilities for preventing danger from fire. He recommended the adoption of some system of electric or telephonic communication between the various parts of each large school building. He also recommended that fire extinguishers be furnished and a better means of exit be provided for some of the class rooms at the Central school.

Mr. Pineo, of the High school, wrote asking for an increase of salary. He will be advised that his salary has already reached the maximum allowed by bylaw.

E. W. Smith, a graduate of Edinburgh University, applied for an appointment to the High school.

Among the reports from standing committees were the accounts approved by the Finance committee. A long report was submitted by the Building and Grounds committee indicating necessary repairs. The board voted $850 in the manner specified by the report. This report animadverted very strongly upon the unsatisfactory condition of the furniture in the South Park school.

A resolution was passed that $200 be spent in renovating the desks. Some discussion ensued upon the desirability of the schools making an exhibit in connection with the agricultural fair in the autumn. The proposition was endorsed by the board, and arrangements were left entirely in the hands of Superintendent Eaton.

The city barrister's opinion on the Money Bylaw was taken, and a resolution was carried upon the motion of Trustee Jay that the City Council be requested to submit a stated case to decide the point at issue. Trustee Dr. Hall recommended that the amounts paid by the Misses Christie, MacFarlane and Johnson to substitutes during their illness be in part refunded.

The secretary was directed to ask the city building inspector to examine all the school buildings during the vacation.

Other business was mooted, but owing to the lateness of the hour the chairman refused to have it taken up.

It is understood that the School board office will be closed, as usual during the month of July.

MINSTREL POUDRE.

Highly Successful Entertainment Given by Young Ladies Last Evening.

The minstrel poudre given by a number of talented lady vocalists at Institute Hall last evening, under the direction of Miss Marrack, was a highly successful entertainment. The opening chorus, "Music in the Air" was an appropriate introduction to the splendid programme that followed, the air being rendered in a very bold and animated manner.

Miss Keefe rendered the solo, "Far Away," with chorus, in excellent style, the chorus being especially good in part singing. Miss L. Baker's solo, "Ma Curly-Headed Babby" with chorus was a pleasing number and received generous applause. Miss E. Ore received an enthusiastic encore for her solo, "O Dry Those Tears," her voice exhibiting considerable range and power and being, withal, very expressive. Miss E. Sehl sang two solos with chorus very effectively, her sweet, clear soprano being heard to great advantage. The trio "Sweet Chiming Bells" by Misses E. Ore, L. Clarke and L. Baker, was charmingly rendered. One of the gems of the evening was the singing of "I arise From Dreams of Thee" by Miss M. Keefe, with violin obligato by Mr. E. Fawcett. Miss Keefe sang with fine expression, and her voice reveals most promising qualities. Miss G. Mills sang the concluding solo, "Good Night," most acceptably. Miss D. Sehl gave a skirt dance with colored light effects, the intricate movements being gracefully executed and the fair danseuse being obliged to respond to an insistent encore. The entertainment concluded with the musical comedy, "Penelope," or "The Area Belle." Miss Emma Sehl as Penelope sang and acted in most finished style. Miss Sehl was in splendid voice, and her soprano solos were highly appreciated. The others taking part in the comedy were all very good, there being little in the action to suggest the amateur. Norman Hardie as Chalks (a milkman), Ray Worlock as Pitcher (a policeman), Frank Sehl as Tosser (in the Grenadiers), and Miss Josephine Colquhoun as Mrs. Croker (mistress), were all excellent in their respective parts. Ray Worlock and Frank Sehl were especially good, their contribution to the comedy creating roars of merriment. The laughing song was of a high order of merit, and it was fully deserving of the hearty encore it received. The performance on the whole was highly enjoyable, and it regrettable that there was not a larger audience present to enjoy the excellent programme.

ECZEMA, NO CURE, NO PAY.

Your druggist will refund your money if PAZO OINTMENT fails to cure Ringworm, Tetter, Old Ulcers and Sores, Pimples and Blackheads on the face, and all skin diseases. 50 cents. If your druggist hasn't it in stock send 50 cents in stamps to the Paris Medicine Co., St. Louis, Mo., who also manufacture Laxative Bromo-Quinine, the celebrated Cold cure.

After Dinner

To assist digestion, relieve distress after eating or drinking too heartily, to prevent constipation, take

Hood's Pills

Sold everywhere. 25 cents.

NAT GOODWIN COMING.

Will Play "The Altar of Friendship" at Victoria Theatre.

Emil Ankermiller, in advance of Nat Goodwin, was in the city yesterday, and says that Madelaine Lucett Ryley's charming drama of English home life, "The Altar of Friendship," will be Mr. N. C. Goodwin's offering in this city. This comedy is from the pen of one of the most noted playwrights in the British Isles. The cast is composed of 22 people, the majority of whom are players of repute who have earned their spurs with the great artists on the English stage.

VAGRANT MINER JAILED.

Man Who Terrorized Island District Sentenced to Six Months Imprisonment.

It will be remembered that among the men who came out with the Scotch miners three years ago were a number who were alleged to be ne'er-do-weels, who had foisted themselves upon the agent sent over by Mr. Dunsmuir, says the Nanaimo Free Press.

In one instance, at least, as the settlers at Englishmen's river know to their cost, this was true, the individual being James Davis, a "Scotch" miner, with a Devonshire accent. This man has been established in that neighborhood during the last two years during which time he is reported to have done not a stroke of work. He has lived by hunting in season and out of season, and by selling his bag in defiance of the law, making his home in a miserable shack put up by a trapper at the forks of Englishman's river to furnish shelter when needed at night.

The ranchers objecting to the destruction of game in this manner, and fearing that Davis might not stop at wild animals, but might shoot cattle, communicated with the police and Albert Hirst was instructed to go to R. J. Hicky, J. P., and be sworn in as special constable for the purpose of arresting Davis. He came across his man before he was armed with the necessary authority and was obliged to let him go. The facts were then telegraphed to Constable Stephenson who immediately drove up. Stephenson and Hirst made their way in the night to the Forks, arriving just at daybreak, expedition being necessary, as if Davis had got wind of the matter he would have made himself scarce for a time. The man was captured just as he was getting off a mass of rags which he called his bed. There was no food in the cabin, which had become a hovel such as is, fortunately, seldom seen in this province. Davis himself was a veritable Weary Willie in appearance, and might have stepped out of a picture in a comic paper.

When the case came before Mr. Hickey the police pressed a charge of vagrancy, alleging that this was possibly the worst instance of the kind in the history of the district, and the magistrate sentenced the prisoner to two months' hard labor, and a fine of $50, or an additional six months' imprisonment. The sentence is now being served at the Nanaimo jail.

It is stated that Davis has a wife and child in the old country for whom he has done nothing since he came here.

THERE'S A STORY IN MORNING TIREDNESS.

A story of poor blood, weakened nerves, of a starved brain. Plenty of food mind you, but perhaps poorly prepared and too poorly digested to maintain a vigorous body. Ferrozone quickly makes blood, gives strength to the nerves, cures the fagged feeling that prevents vigorous thought and action. Use Ferrozone, it makes blood, and good blood feeds the nerves. Strong and vigorous nerves are just another name for good health. If you seek health, and a relief from the tired morning feeling use Ferrozone. Sold by all druggists.

Century Cameras, Eastman Kodaks, Thomas' Orthocromatic Plates. All good. Fleming Bros., 52 Government street.

The steamer Telemachus, of the Ocean S. S. Co., which is en route here, having sailed from Yokohama on June 25, is bringing over 1,500 tons of general cargo, including a heavy shipment of rails, for this port. The Lyra, which sailed from Yokohama on the 21st, is also due here.

Could scarcely get up or down without help.

Had a severe pain in the small of the back.

Was treated in the Hotel Dieu, Kingston, but not cured.

Kidney trouble was the trouble.

Doan's Kidney Pills

Cured Mr. George Graves, Pitts Ferry, Ont., of a very bad case of kidney trouble.

He tells about the cure in the following words: "I cannot recommend Doan's Kidney Pills too highly. I never took anything that did me so much good. I had a severe pain in the small of my back and could scarcely get up or down without help. I could hardly urinate, but when I did the pain was terrible. I was in the Hotel Dieu, Kingston, last winter and when I came out I was some better but not cured. It was then I saw Doan's Kidney Pills advertised. Since taking them I have been completely cured and have not had any trouble with my kidneys since."

Doan's Kidney Pills, 50 cts. per box or 3 for $1.25, all dealers or

Aki Maru is Due from Orient

Nippon Yusen Kaisha Liner Expected to Reach Port Today From Orient.

Athenian Sailed Last Night---Tees and Boscowitz in From Northern Ports.

Steamer Aki Maru, of the Nippon Yusen Kaisha line, is due today from the Orient. The Japanese liner, which is in charge of Capt. Eckstrand, and which is the largest merchant steamer afloat, flying the flag of Japan, is bringing 134 Chinese and 200 tons of freight for Victoria. The steamer Iyo Maru, of this line, which sailed outward Saturday, had a very large cargo, including big shipments of cotton and flour. The Victoria, of the Northern Pacific line, and the steamer Keemun, of the China Mutual line, also sailed outward on Saturday, but neither of these vessels called here. Both had large cargoes, the big China Mutual liner carrying 3,455,526 feet of lumber, 71,662 bushels of wheat, 98,911 bushels of barley, 2,000 sacks of flour, 400 bales of hay, 75 ship's spars and 3,000 cases of canned salmon.

IS OVERDUE.

Fears Held For the Safety of the Big Steamer Minnetonka.

The steamer Minnetonka, a large freighter which is being brought from New York to San Francisco, and which is now 90 days out from the Eastern port, and 25 days from Coronel, her last port of call, is reinsured at 18 per cent., as a result of the alarm being felt for the vessel.

The anxiety felt for the vessel because of her long passage is increasing and shipping men are beginning to believe that the steamer has met with some mishap. Laden as she is, with a heavy cargo of general merchandise, she would fare badly in a heavy gale. The recent hurricane which swept the Chilian Coast may have been encountered by the steamer, which may account for her long trip. The Minnetonka is a freighter and measures 429 feet in length. She is commanded by Captain Evans.

The anxiety felt for the Swedish bark Spes, because of her long passage, has increased to a fear that the vessel has been lost. The action of the Liverpool underwriters today, in advancing the reinsurance rates on the vessel from .85 to 90 per cent., indicates that they have grave fears for the safety of the vessel. If two weeks elapse and nothing is heard from the overdue bark she will then be numbered among the "missing" ships.

The Spes is 165 days out from London for Fremantle, with a general cargo, and has not been spoken on the entire voyage. The Spes is an iron bark of 648 tons burden. She was built in 1870 and is commanded by Captain Steensohn.

There were two additions to the overdue list today and one vessel was taken from the board. The Italian bark Colombo was posted at 15 per cent., being 107 days out from Buenos Ayres for Sydney. Twenty per cent. was quoted on the Samaena, a British ship which is 112 days out from Norfolk, Va., for Buenos Ayres. The Altcar, which was at 10 per cent., was taken from the board upon the report that she had been spoken.

FROM THE NORTH.

Steamers Tees and Boscowitz Return From Northern Ports.

There were two arrivals from Naas and Northern British Columbia ports on Sunday. The Tees, of the C. P. R., and the steamer Boscowitz returned to port bringing news from the salmon fisheries of the Northern Coast. The fishermen were all out, but up to the time the steamer sailed the run was very poor, the highest catch per boat reported on the Skeena being 84 fish. The steamers had few down passengers. On the Tees were Miss Edwards and Miss Hopkins, and Messrs. Pender and Marshall, who have been doing some survey work at Port Simpson. On the trip North the steamer had 126 passengers. The Boscowitz brought 150 cases of salmon from Peter Herman's cannery. Among her passengers was Mr. Hewson who has been to Alert Bay. The Boscowitz will remain in port until some repairs are completed. The Tees will sail North on Thursday night.

BROUGHT MUCH GOLD.

Steamer City of Seattle Brings Klondike Treasure to the Sound.

The first large consignment of Klondike gold, $750,000 worth of the output of 1903, reached Seattle on Sunday night on the steamer City of Seattle, Capt. Harry Cann. There were two tons of the treasure, including the weight of the strong boxes and receptacles in which it was shipped from the North. The larger consignments were: For the North American Transportation & Trading Company, of Seattle, $246,408. The Selby Smelting Works, of San Francisco, $403,000. United States assay office, Seattle, $26,700; Northern Commercial Company, Seattle, $48,101.

The Seattle had 45 passengers, 25 of whom came from Dawson and other Yukon points. The latter were ten days from the Klondike to Seattle.

Capt. Cann reports disagreeable weather throughout his voyage north and on the return as far south as Vancouver. He spoke the steamer Farallon off Juneau, June 25, the Princess May the same day at Sum Dum, the Humboldt and Spokane, both North-bound, June 26, off Ketchikan and Fort Wrangel respectively. June 27 he passed, all bound North, the steamers City of Topeka, Newsboy and Danube.

VERA RETURNS.

Brought a Catch of 485 Skins—Crew Objects to Continuing Voyage.

Sealing schooner Vera, Capt. Folger, has returned from her Coast cruise, without cruising long at Copper islands on account of an accident with the main topmast head, and trouble with the crew. The Vera had a catch of 485 skins. It was hoped by sealing men that the schooner would have a large catch, for according to reports received by the schooner City of San Diego, the schooner was among considerable seals at the close of the cruise off the Coast in April. It was then reported that the schooner had over 600 skins, and it was expected that she would get considerable more before she returned, but the report seems to have been in error, for the Vera did not get more than 485 skins. All were taken on this Coast for the schooner returned from the Copper islands without lowering. The crew gave trouble and did not want to continue the voyage, and this, with the accident to the main topmast head, caused Capt. Folger to put back to port.

MARINE NOTES.

Ship Columbia, which has been lying in Esquimalt harbor since she was towed in by the Norman Isles a derelict in April last, was towed behind White rocks yesterday by the tug Lorne.

Steamer Athenian, of the C. P. R. line, sailed last night for the Orient. She passed out without calling here.

Steamers Royalist and Ivydene are coming to Comox for bunker coal. The Royalist is now due from San Francisco.

DEMAND FOR CHICKENS.

Department of Agriculture Trying to Increase Poultry Trade of Canada.

The following circular letter has been sent out by the Department of Agriculture at Ottawa:

"The present time is most favorable for the production, fattening, and marketing of farm chickens. There has been such a substantial increase in the consumption of chickens and eggs within the last few years that it is not possible to rear a greater number of suitable market chickens than can be sold in Canada, to supply the home markets. As a result of the shortage of chickens, the trade with Great Britain was lessened. This is unfortunate on account of the great demand for Canadian chickens in Great Britain and the good prices that are paid.

"The chief of the poultry division, Mr. F. C. Hare states that numerous letters have been received from produce merchants, poulterers and commission merchants who desire to learn in what localities chickens can be bought in great numbers and at reasonable prices. From several Canadian cities, and especially from Montreal, produce firms have asked to be informed where market chickens suitable for shipping to Great Britain could be obtained in greatest numbers. British poulterers and commission merchants have repeatedly asked for the same information. The letter of a well established produce house in London, England, was received last week.

This firm wished to 'start an undertaking for the purpose of importing Canadian poultry to Great Britain.' They desired information as to the probable success of such a project and the possibility of obtaining poultry, (especially fowls), in large quantities, and the best districts for the collection, etc., of them. Last fall a firm in Cape Colony wished a poultry trade developed with that Colony. One shipment of Canadian chickens was made to Cape Colony which arrived in a satisfactory condition and pleased the trade. A New York firm wrote that they desired to import Canadian Chickens and were recommended by the department to a firm in the Maritime Provinces, from whom they purchased chickens, and were impressed favorably by them.

"The above, and similar requests are difficult of solution even by one in touch with the Canadian Produce firms and packing houses that are buying and marketing chickens. The majority of our established firms are equipped with a complete plant for marketing in Canada or Great Britain, several times more chickens than they can buy. Their profits are diminished through scarcity of chickens. Nevertheless merchants in Great Britain, Cape Colony, the United States and even in Australia are looking to a supply of Canadian chickens to satisfy their growing trade.

"The problem of supplying this wonderfully increased demand for chickens can be solved by the farmers alone. Instead of the farmers rearing fifty or a hundred chickens that receive little attention or feed, he should rear from 200 to 1,000 chickens annually. These should be of a utility type, such as can be found in the popular breeds, Plymouth Rocks and Wyandottes. The chickens should be hatched and reared by incubators and brooders, and ready for market the cockerels should be placed in fattening crates and fattened. The equipment required to do this work is not an expensive one; $200 to $250 is the cost of incubators, brooders, houses and fattening crates for finishing 1,000 chickens. It is as necessary for realizing the greatest profits from the poultry business as threshing and mowing machinery is for general farming. The work connected with furnishing 1,000 chickens with the proper appliances is no more than is necessary for rearing 200 chickens by the natural means. Poultry farming is a business that requires to be developed in the same manner as the butter, cheese and fruit branches. A substantial profit can be made from the poultry business, when it is carried on as an adjunct to farming, and with the same careful attention and financing.

"The Dominion Department of Agriculture is endeavoring to increase the poultry trade of Canada; to encourage the growth of the greatest number of high class chickens, and to assist in the marketing of them. A revised edition of the bulletin, 'Profitable Poultry Farming,' has just been issued and will be mailed without charge on application to the Commissioner of Agriculture and Dairying, Ottawa. The information it contains is of great value in the poultry work, and it should be in the hands of every interested poultryman in Canada."

Political Notes From All Points

Meeting of Conservative Executive at the Driard Hotel This Evening.

Capt. John Irving to Run in the Conservative Interests in Atlin.

The executive committee of the Liberal-Conservative Association will hold an important meeting at the Driard hotel this evening. It is requested that every member be present.

The Liberal central campaign committee held an orginization meeting last evening in the committee rooms, Broad street.

It is stated in the Skagway Alaskan of the 20th inst., that Capt. John Irving has announced his intention of becoming a candidate in the Conservative interest at Atlin for the forthcoming elections. Capt. Irving and his election is looked upon as a certainty should he be placed in nomination by the Conservatives.

Registration of voters in Victoria district is proceeding very rapidly, and the same may be said of every district on the Island. It is important to remember, however, that it is absolutely necessary that every elector should register this year, as all the old lists have been cancelled.

At a meeting of Liberal-Conservatives held in Nelson's Hall at Sidney last evening, which was largely attended, organization was perfected, and the following officers elected: Hon. president, Hon. Richard McBride; president, E. G. Grime; vice-president, Peter Imrie; secretary, J. Critchley; treasurer, Joseph Johns; executive committee, Messrs. Hewitt, Haugh, Hooton, Trickie, John Brethour, Julius Brethour, Phillip Brethour, R. Simpson, Dickson, Smith. Addresses were delivered by R. Cassidy and W. L. McCaul.

ESSINGTON ORGANIZED.

Port Essington, June 22.—On Saturday, 20th inst., a meeting was held in the Port Essington Hall to establish a Liberal-Conservative Association. The attendance, although small, was very representative, there being present a representative from each cannery in the Skeena district. Mr. W. Lord was elected president, Mr. R. Cunningham, vice-president, and Mr. B. Short, secretary. Twenty-eight members were enrolled, and a committee formed consisting of Messrs. Kirby, Chambers, Gilmore and others. The meeting terminated at 10:30, to meet again on July 6.

THE PREMIER SANGUINE.

Premier McBride, who was in the city yesterday, stated that there was no discord in Conservative ranks in Victoria, says the Vancouver Ledger of yesterday. He stated that there was great unanimity in the party in that city, and there was never seen in Victoria such rivalry for the different executive offices in the gift of the Conservative Association, which he thought showed that Conservatives were taking a keen interest in the coming contest. He believed the party was fairly organized throughout the province already. He had been receiving messages from Conservative organizations from one end of the province to the other endorsing the government.

ROSSLAND AWAKE.

There was an enthusiastic meeting of local Conservatives last night at the headquarters of the party in the Grand Union building, says the Rossland Miner of Saturday. The ordinary routine of business was discussed and excellent progress was reported as to the work of perfecting organization. Enough votes have been recorded with the secretary to insure the election of the Conservative nominee next October if the right man is selected. A unanimous vote was carried to the effect that any aliens who may desire naturalization as loyal British subjects may have their wants attended to in that particular respect by the secretary of the association. Speeches were delivered by many present welcoming the idea that a new-born idea prevailed in this province by which the Conservatives had taken the initiative in arranging for the registration and care of all those alien born who have decided to swear allegiance to this country.

GREEN AT GRAND FORKS.

Hon. R. F. Green, minister of mines in the new McBride government, arrived here Thursday from his home in Kaslo, for the purpose of conferring with local Conservatives respecting political matters, says the Grand Forks News-Gazette. Mr. Green held an informal reception at the Yale and met all the prominent local Conservative politicians. Mr. Green created a favorable impression. He seems to realize the importance and magnitude of the mining industry and is animated with a desire to promote its advancement in so far as his department is concerned. Mr. Green left yesterday for Phoenix and Greenwood.

POLITICAL NOTES.

The Conservatives of Slocan City held a very satisfactory meeting on Wednesday. The election of officers followed, resulting thus: President, W. S. Johnson; vice-president, H. D. Curtis; secretary-treasurer, H. Jorand; executive committee, J. Saulter, T. D. Woodcock, C. E. Smitheringale, Geo. Henderson, Jas. Farrell, A. C. Smith, R. I. Kirkwood, Jas. Tattersall.

Rossland Conservatives are anxious to have Mr. Goodeve run for that city. Mr. Goodeve is one of the ablest speakers in the Kootenays, and would add greatly to the debating strength of the Conservative party in the local House.

Moyie organized a Liberal-Conservative club last Tuesday night.

Liberals at Port Essington have nominated P. Herman as candidate in their interests in Cassiar district.

PASSENGERS.

Passengers per steamer Charmer from Vancouver Sunday: Chas. Dickenson, Miss Roberts, F. M. Leonard, A. H. Ritchie, Mrs. Murphy, Rev. Murphy, W. Heinkle and wife Frances Elliott, Mrs. Orphell, R. B. Denning, Miss Denning, C. B. Clark, A. E. Byers, W. E. Hayes, A. T. Buller, Hy. L. Howard, Miss Stevens, C. E. Stevens, Miss Mills, Miss Furness, W. Orphel, W. J. Lemmons, Miss Jolliffe, M. Jolliffe, J. H. Jolliffe, Miss V. Halsey, Geo. Campbell, Wm. Campbell, Mrs. Roberts, W. Martin, A. Archibald, J. H. Turner, E. A. Baldwin, P. Rover, J. Van Gosan, C. H. Wright, J. H. Mulhall, G. E. Robinson, D. Blair, S. F. Mackenzie, Dr. Fagan, Miss Angus, Mrs. Angus, F. E. Cuthbert, Miss N. Flumerfelt, J. Boscowitz, J. H. Lawson, W. McNell, J. Christopherson, J. Hoskins, A. Johnson, E. Johnson, F. Turner, T. Plimley.

Passengers per steamer Rosalie from the Sound Sunday: R. H. Copeland, Mrs. R. H. Copeland, V. E. Roberts, E. P. Murphy, Mrs. E. P. Murphy, Miss Murphy, J. S. Latimer, C. W. McIntyre, O. L. La Pralke, H. M. Holmes, Miss Harris, Miss Huntington, B. Goodwin, Jos. Hutchinson, C. H. Jacobs, Dr. Dwight, D. Bishop, W. H. Hewitt, Mrs. W. H. Hewitt, Miss Hill, Mrs. Hewitt, Harry Glover, F. E. Sheete, Jas. Breen, L. White, J. L. Conliffe, D. McOdron, Jas. Anderson, W. N. Townsend, John Romano, Miss Romano, J. Wilson, J. Dempsey, W. Morrison, G. Reuoh, B. Parish, R. C. Price, Nellie Price, E. Loftus, E. C. Bowes.

Passengers per steamer Majestic from the Sound Sunday: G. H. Durham and wife, Mrs. Wilson, R. Burns, A. J. Murpay, and wife, J. R. Huntel and wife, N. P. Andrews and wife, R. S. Turnbull, Geo. Dixon Robt. Tripp and wife, W. Pilcher, W. Ross, D. A. Wheeler, wife and daughter, R. Ordress, W. Gregg and wife, C. E. Jackson, H. H. Little, A. H. Bartlett, Miss Burns, Miss Joseph.

INCORRECT.

We reprint the following despatch from Victoria which appeared in Saturday's Vancouver Province in full:

Victoria, June 27.—(Special.)—Conservatives here had a stormy session last night over the selection of an executive committee.

Two factions, one representing the old Prior section, headed by George Russel, and the younger Conservative element supporting Premier McBride, headed by A. L. Belyea and J. L. Beckwith, had each organized forces to capture the executive. The Prior adherents were successful, whereupon Mr. Beckwith made a heated speech attacking the Priorites.

Mr. Russell retorted in kind, saying he knew of certain meetings which the other crowd had been holding, and that all the trouble with Beckwith was that he had been beaten at his own game. Mr. Russell's section is intent on turning down Hon. A. E. McPhillips, while supporters of the latter say if McPhillips does not get the nomination they will run him as an Independent.

It is needless to say, so far as Victoria readers are concerned, that this despatch is incorrect in every particular. But it has evidently been circulated through the Liberal newspapers of the province for the purpose of insinuating that the Conservatives of Victoria are in a condition of hopeless disunion. But the internal inconsistencies of the document are proof enough that it is incorrect. According to this statement it is the Prior followers and the McPhillips followers who are fighting. But it is also the old element in the Conservative party fighting the younger element. It might occur to almost anyone of average intelligence that both of those statements could not possibly be true. Both Colonel Prior and Mr. McPhillips have been loyally supported by the Conservative party, but Mr. McPhillips has always been in closer touch with what we presume is meant by the "old gang," namely the party headed by Mr. Turner, than ever Colonel Prior was, for the reason that Colonel Prior was till lately in Dominion, and not in local politics. But for the fact that Colonel Prior and Mr. McPhillips have been bitterly opposed in provincial politics these misrepresentations would not be worth confuting. They have, however, been opposed, and the attempt is being made by the Times to inject that opposition into the affairs of the Conservative party which it does not concern, and by the Province to make out to the rest of British Columbia that that opposition dominates the Conservative party in Victoria. It would be a good game if it were not so clumsily played. The Times has always been an opponent of party lines in provincial politics. We notice it is hanging back in its support of the Liberal party. What does it hope to do? It hopes to split the Conservative party so that when the inevitable split in the Liberal party occurs, it may have a chance to get a Mugwump ticket in the field. The Liberal party is leaderless at the present moment, but a large section of the party has quite made up its mind who shall be the leader after the elections. The Times is perfectly well aware of this and will do anything rather than follow that gentleman in his independent attitude to the Ottawa government, and the aggressive provincialism of his policy. If it could only split the Conservative party then it imagines an Independent ticket might win, controlled by Liberals of the peculiar denomination to which it belongs itself. Hence these vain imaginings about the condition of the Conservative party! We give the Times credit for more insight than many of the Liberals. It appears to realise what many of them do not, that they must either make their campaign upon what Mr. Taylor called the "prestige" of the Laurier government, or they must follow Joseph Martin, and that their chances of success in either case are about equal. No wonder those who will not follow Joseph Martin are casting about for a faction of the Conservative party to which to ally themselves; But they will not find one. The Conservative party is solid in Victoria, and any one leaving it would only go as a solitary and unregretted unit.

THE CANADIAN SITUATION.

The New York Evening Post devotes a long article to the dissection of the Canadian situation in reference to the Imperial policy of Mr. Chamberlain. It begins by drawing a parallel between Mr. Tarte and Mr. Chamberlain. It says that Mr. Chamberlain's position in the British cabinet now is similar to the position occupied by Mr. Tarte in the Canadian cabinet prior to his expulsion. We have seen this analogy referred to in home papers and also in British papers. But its force has never appealed to us. The positions of Mr. Tarte and Mr. Chamberlain are absolutely different. When Mr. Tarte raised his banner on the tariff question, it was impossible to discriminate his views from those of the Conservative party, the opposition to the government. It is quite true that a protective or national policy has, since 1896, coexisted in the cabinet with the traditional tariff policy of the Liberal party. It has so coexisted by virtue of one of the most extraordinary compromises between principle and political exigency ever known in any country. The Post recognizes this by speaking of our government as "traditionally" committed to one thing, and "actually" committed to another, but it does not go or to point out that the two things are mutually exclusive and logically inconsistent the one with the other. The only means by which two such policies could coexist in the same cabinet would be by the exponents of both remaining silent about either. Believers in protection could restrict their arguments to private assurances, and public word pictures about national development. Believers in free trade could depict a gradual progress in that direction. But when a cabinet minister came out with definite declarations of protectionist policy, he was doing exactly what the opposition was doing, insisting upon some fruits of the principles he believed in. That was Mr. Tarte's position. Mr. Chamberlain's is absolutely different. There is no such resemblance between Mr. Chamberlain's statements and those of Mr. Campbell Bannerman, as there was between those of Mr. Tarte and Mr. Borden. It might be said of Mr. Chamberlain in reference to the Unionist party, as well as the prevailing union sentiment in the Empire, as was said of Macbeth's dagger, "Thou marshall'st me the way that I was going." He has merely been the voice giving clearness of vision and authenticity of utterance to the goal towards which the British Empire is set, and which the British Empire must reach or achieve dismemberment. As such, his exclusion from the present British cabinet would have made no difference to him, although it would have made an immense difference to the British cabinet. The New York Post recognizes the immense importance of the attitude of Canada in this Imperial crisis. It remarks that the official press is non-committal, but it goes on to say that meanwhile it "shows greater interest in the renewed activities of the American reciprocity leagues than in the Imperial visions of Mr. Chamberlain. Evidently the Prime Minister would prefer the immediate good of a fair treaty with the United States to the doubtful and remote advantages of Imperial federation." Now is this Sir Wilfrid Laurier's preference? If it is, we in Canada ought to know it. The Post is an acute and impartial observer. It is conscientiously endeavoring to forward a policy it conceives to be for the benefit of the United States. It sees a favorable juncture in the present condition of Canada. Is its vision correct? Sir Wilfrid Laurier would greatly relieve a feeling in Canada which is now one of anxiety, and which will shortly become one of rage, if he were to declare that under no circumstances would his government contemplate any meeting of the Joint High Commission in the near future. The violence of Germany and the gentle wooing of the United States are equally obnoxious to Canada. They both are inspired by trade hostility to the British Empire of which we are not a dependency, but an integral part. The New York Evening Post has no doubt whatever about the real feeling of Canada. It simply desires that the United States should snatch something from a Canadian government not truly representative of Canada. "This," it goes on to say, "is a mood by which the flour-millers of Minneapolis and the Republican advocates of the Iowa idea generally should not fail to profit. In the present temper of the Canadian ministry it would be easy for the Joint High Commission, should it be convened this summer, to agree upon a basis for a reciprocity treaty; while at a later time we may have to deal with a protectionism more violent than our own. It is highly important, then, that the Joint High Commission should meet, for Canada and the United States have every reason for adjusting their trade relations before the Canadian tariff policy is hopelessly warped by the Imperial idea." The Post overlooks something which the people of a free country like Canada possess, namely, a certain measure of direct control over their ministry. In the present mood of the Canadian people we should strongly advise the government to refrain from arousing the tempest which a renewal of reciprocity negotiations with the United States at this juncture would evoke. If they so betray the interests of Canada and the Empire, vengeance will be swift and sure. This is no party matter. It is a vital question to everything we most prize both in our national and Imperial status.

A FALSE DESPATCH.

There are some things about the error made, presumably by the Associated Press on Saturday, which are hard to understand. When reading the news on Saturday about the supposed reverse in Somaliland, we noticed that the latter half of the despatch seemed inconsistent with the beginning of it. This latter half spoke of sheep and camels of the Mullah having been captured. It now turn out to be a portion of the authentic War office statement contradicting the unfounded Paris canard that the British posts had met with a serious reverse. Now how was it that part of the War office statement, contradicting the baseless rumor, appeared incorporated with it, and with the contradiction left out. It is almost incredible that an occurrence like that should be due to a mistake. If it was a mistake, it was a peculiarly inexcusable one, because it entirely perverted the real meaning of the news. Our news, however, has been wofully out of focus ever since the Chamberlain Imperial policy was divulged. If we took as current the view of Great Britain presented to us, we should see, instead of a vigorous and aggressive country dominating more than half the world in trade, diplomacy and the arts of civilization, a feeble and decrepit nation grasping at straws without mind or purpose, and pitifully cringing for a smile before the United States of America. It is high time this picture presented to us daily had substituted for it a colorless resume of European news.

In the State of Georgia an umpire in a baseball game has been shot. If players and spectators are disposed to quarrel with the umpire's decisions at all, the logical thing to do is to shoot him. The umpire of a game is a temporary autocrat by consent. There is no appeal from his decision, except an appeal to arms. An umpire's decision may be right or it may be wrong. Nobody ever questions it on the ground that it is wrong. We have seen many scores of baseball games, and a very large number of unseemly disputes with the umpire, but we have yet to see a case where the determining motive for questioning his decision was not an injury done by that decision to the side of the questioner. When we see a stalwart baseball player strut up to the umpire and invite him to come and be strewn about the field in small pieces, because of a wrong his decision has done to the other side, we shall begin to have doubts about the essential rectitude of umpires, and faith in the judicial abilities of excited partizans. We speak of baseball with humility, but surely there must be a large number of points so close as to render an accurate decision next to impossible. This fact, we believe it, subject to correction, to be a fact, gives an umpire great power if he chooses to misuse it. That is to say, he can continuously give close decisions in favor of one particular side, which is bound to work injustice. Should there not be an automatic system of preference, where the umpire knows in his own mind that he does not know whether a man is out or not? We seem to have noticed umpires offset one decision of this kind against another. But why should there not be an automatic system, so that if an umpire were appealed to and said he did not know, something would happen according to an established rule? If an umpire never gives a runner on one side out unless he is sure he is out, and always gives a man on the other side out unless he is sure he is in, one does not have to be a baseball expert to know which, of evenly balanced teams, will win in nine cases out of ten. If it is an umpire's privilege to act in that way if he chooses, it is a wonder more of them are not shot.

Sir Henry Campbell Bannerman regards it as a vindication of Great Britain's free trade policy, and an argument for its continuance that "there is about 30 per cent. of our population underfed, on the verge of hunger doubtful day by day of the sufficiency of their food."

The London Times remarks that the net result of the recent British operations in Somaliland appears to be that the Mullah has now established himself in British territory. "The facts," it says, "that an undisturbed withdrawal is about the best we can hope for, and that the Mullah has marched with all his army into our territory, are proof enough of the gravity of the situation."

The New York Evening Post desires an immediate meeting of the High Joint Commission, and the negotiation of a reciprocity treaty between the United States and Canada because "Canada's tariff policy is hopelessly warped by the Imperial idea." Principal Schurman of Cornell University told his students that Canada's only possible escape from Chamberlainism was annexation to the United States. If British public opinion would only study the opinions of Americans in the United States instead of listening to "taffy" speeches by Americans in Great Britain it would be much better able to appreciate the Imperial question.

WATER METERS.

To the Editor.

Sir,—For the benefit of those in the city who have advocated the meter system in connection with the city's water supply, and who, in conjunction with those connected with the waterworks, have tried to make the ratepayers believe, that the meter system would not entail any extra expense on the consumers, permit me to give the following facts:

The meter was installed at my residence on Yates street, on June 6th, since which time the water has been used just as it had been without the meter, as I wished to test thoroughly what the difference would be.

Today the reading of the meter was taken and it registers 1200 cubic feet, which multiplied by 6½, gives 7,500 gallons. This is for the three weeks, and is at the rate of 2,500 gallons per week, or 10,000 gallons per month.

The quantity allowed me is 5,500 gallons, for which I pay $1 net per month, so that having used 4,500 gallons more than my allowance, I should have to pay $1.40 per month, or an advance of 40 per cent. I quite bear in mind that June is a summer month, and that consequently more water would usually be used on account of the dryness, but on the other hand I would point out that nature has been apparently taking pity on the water consumers during the past few weeks, and has treated them to a number of refreshing showers, which have naturally tended to lessen the quantity of water that otherwise would have been used.

I dare say others consumers will, when they get the readings of their meters, be able to bear me out in what I have written, and while I am not "kicking," still at the same time I consider an advance of 40 per cent in water rates is a great deal too much.

H. KENT.

PROVINCIAL PRESS.

The presentation made by the Vancouver branch of the Provincial Mining Association to Mr. A. C. Hirschfield, of Atlin, on the 22nd ult., was one of those acts that prove that even a newspaper editor sometimes finds his good work recognized and appreciated. Mr. Hirschfield's services, both to the Vancouver branch and the Association in general, had been of the greatest value, and the token of esteem he met with from Vancouver was some evidence of the regard in which he is held.—B. C. Mining Exchange.

A dog running in front of a handcar on the K. & S., near Sandon, caused a bad wreck on Friday. Bruce Heathcote, manager of the Bank of Commerce at Nelson, who was on the car, narrowly escaped death, while the conductor was seriously hurt.—Slocan Drill.

The rose flourishes and waxes beautiful in the soil of the Golden City to a degree that astonishes visitors, who are often prone to the impression that mountain soil is not suited to the cultivation of flowers. That the very reverse is the case everyone resident here knows, and it is a fact that all the flowers that prosper in the gardens of the camp none come to greater perfection than the rose when properly cared for.—Rossland Miner.

The War Eagle assault case came to a termination this afternoon, when Magistrate Boultbee sentenced W. Ferguson to one month's imprisonment and $75 fine, with another two month's imprisonment of the fine was not paid. The prisoner will also pay the costs of the prosecution. He was removed into custody. The other participants, L. H. Sorenson and A. Hazard, were fined $15 each and costs.—Rossland World.

A very gratifying feature of the transient travel this spring has been the number of men who have passed through Quesnel en route to the Nechaco and Bulkley valleys in search of homes. When they can not get up by the Skeena route they come this way and find no trouble. Eventually they will learn this is the best way to reach the farming lands in those districts, as they do not go up against a swollen river and have to wait until the flood subsides.—Ashcroft Journal.

PRESS COMMENT.

Sentiment in favor of a government railroad to the wheat fields is growing rapidly at Ottawa, according to the Toronto News. It hears that the entire Grand Trunk plan may even be changed and a government railway constructed right through from Quebec to the Pacific Coast.—Quebec Telegraph.

That was a charming tableau in the legislature yesterday, when Mr. Stratton having spoken and wept himself into silence Premier Ross went to the tearful minister and clasped his hand. If Cap Sullivan had added a third to the Two Graces it would have been a picture for the admiration of gods and men.—Hamilton Spectator.

What may be the result of Mr. Chamberlain's daring initiative in fiscal reform on the relations of parties to each other and to the people at large, one consequence of it has already begun to be evident. It is sure to make intelligent men reflect on the tendency of rigid adherence to an economic theory which, however applicable, it may be to one period and train of circumstances, may be quite unsuitable in other conditions.—Montreal Gazette.

The Monetary Times in its last issue, has much to say of the speculative craze with which Toronto and adjoining towns in Ontario have been afflicted for the last few years. The collapse of the Ames Company has shown how wide are the ramifications of the mania for getting rich quickly. All classes of society appear to have been infected with the craze. Many women took a whirl at stocks with disastrous results; and even the domestic servants were drawn into the game.—Manitoba Free Press.

There is life in the old isle yet. It is expected that the British navy will be increased in the coming year by the completion of six battleships, eleven armored cruisers, one second-class cruiser, two sloops, four destroyers, eight torpedo boats and three submarines. Notwithstanding this large augmentation a new programme has been advanced, comprising four first-class armored cruisers, three third-class cruisers, four fast scouts, fifteen destroyers and ten submarines. Britannia rules the waves, and intends to continue to rule them.—Ottawa Citizen.

The frequent lynching of negroes in the United States will produce in Europe substantially the result which the massacre of Jews in Russia produced in the United States. It will be assumed that only in a community of savages could such occurrences take place. It is folly for the Northern people to continue to speak of lynching as distinctively a Southern practice. Evidence of barbarity is too common at the North—San Francisco Chronicle.

The country is doomed to the certainty of future suffering from the new Liberal pchey of toleration towards insolent, defiant wrongdoing. The country must also face the certainty of present loss from the intrusion of the judicial element in our politics. The judiciary has been regarded as the sword of a free nation's virtues. It is no light matter when the legislative representatives of more than half of the people of Ontario unanimously applaud the public man who denounces the judiciary as the shield of guilt.—Toronto Telegram.

MEN AND THINGS.

A $100 bill will sustain a weight of 47 pounds, lengthwise.

The roar of a waterfall is produced almost entirely by the bursting of millions of air bubbles.

The average gross returns from all cultivated lands in the country is less than $10.50 an acre, and for cereal crops only $8.02 an acre.

John Eliot's Indian Bible of 1665 was on exhibition at the Woman's Board meeting in Boston, having been loaned by the town of Natick, by which it is owned. The book is in an excellent state of preservation. Two other copies of this Bible are in existence — one in Connecticut, the other in Europe.

Glass houses of a very substantial kind can now be built. Silesian glassmakers are turning out glass bricks for all sorts of building purposes, claiming for them such advantage as variety of shape, free transmission of light, strength, cheapness and general adaptability. When complete diffusion of light is needed, as in factories, conservatories and courtyards, they are specially suitable.

Lake Erie affords a good opportunity for studying the effects of the wind on an enclosed body of water. Its trough, 50 miles in extent, lies about in the direction of the west to southwest winds that prevail there, and a great blow from that quarter sends the body of water eastward, so that a rise of eight feet or more takes place at Buffalo in the course of a few hours. When the force of the gale has passed the water swings back.

RISIBILITIES.

The Count—And now everwt'ing ees ready for my wedding wis Mees Gotrox. I t'ink every wan will say I am faultlessly attired.

The Baron—Parblea, mon ami! Considering ze nature of ze lady's attractions, I t'ink it might be more appropriate if you wore a beeziness suit.—Puck.

Miss DeAuber (an amateur artist) — Have you ever been done in oil, Mr. Marks?

Mr. Marks—Well, I guess yes.

Miss DeAuber—And who was the artist?

Mr. Marks—Artist be hanged! It was a promoter that did me.—Chicago News.

"How's everything?" inquired the baking powder drummer, genially.

"Liveller 'n 'ell," enthusiastically replied the landlord of the tavern at Polkvill, Ark. "We run a hypnotist, three Mormon elders, a painless dentist, a passel of book agents, several niggers and a preliminary survey for a new railroad, all out of town this past week."—Puck.

Mrs. McCall—So your dear old uncle has gone to heaven?

Willy—We don't know yet. His will won't be read till after the funeral Catholic Standard and Times.

TO BREAK UP A COLD.

All you require is a glass of hot water, a little sugar, and thirty drops of Polson's Nerviline. Take it real hot, and in the morning you will wake up without a cold. When depressed or tired, try Nerviline; it will tone you up better than stimulants. Nerviline wards off all sickness and keeps people well. Large bottles 25 cents.

Thirteen new theatres, to cost $8,000,000 are building in New York city.

The head instructor of the naval college of China is to be an American.

Could Not Sleep At Night.

Was All Run Down.

Had No Appetite.

FOOD WOULD NOT DIGEST.

Mrs. I. W. Warner, Riverdale, N.S., is glad there is such a remedy as

Burdock Blood Bitters.

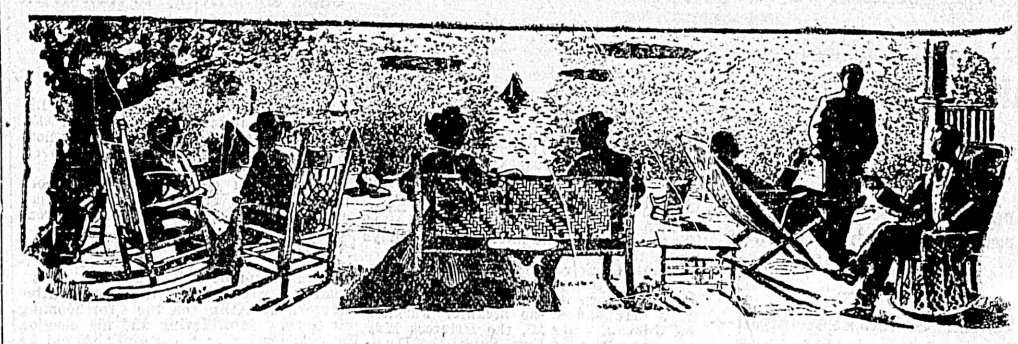

IT CURED HER AND WILL CURE YOU.

She says: "I wish to add my testimony to th any others who have spoken so highly a the unfailing virtues of Burdock Blood Bitters. I was all run down, had no appetite, lost all ambition, could not sleep much and had terrible headache and backache, and my food did not digest properly. I saw B.B.B. advertised, so concluded to give it a trial, thinking if it did no good it could do no harm. But after using one bottle I began to feel better, and by the time I had used three bottles I was feeling like a new person. I am so glad there is such a remedy provided for suffering humanity, and cannot praise it enough for I think there is no medicine like it on the market."

Local News

Trades and Labor.—The meeting of the Trades and Labor Council which was to have been held on July 1 has been postponed until the 8th inst., when officers will be elected for the ensuing year.

Clerks Entertain.—A large party of friends and acquaintances were entertained by the Retail Clerks' Protective Association at an ice-cream and strawberry social and dance up the Gorge yesterday evening.

Had Good Time.—The excursion on the steamer City of Nanaimo on Saturday afternoon under the auspices of the young ladies of St. Andrew's Presbyterian church, was well patronized, and a most enjoyable outing was had. The steamer left at 1 p.m. and returned at 8 o'clock. She went as far as San Juan and Lopez islands.

To Appoint Inspector.—As will be seen by advertisement in another column, the city is calling for applications for the position of inspector of electric wiring done in the city under the provicions of the Electric Wiring Bylaw. Applications must be accompanied by testimonials and the remuneration is to be the fees collected.

Happily Wedded.—At St. Andrew's Presbyterian church yesterday morning, Mr. Samuel G. Henderson, salesman with Messrs. B. Williams & Co., was united in marriage to Miss Agnes D. Wilson, daughter of James Wilson, sanitary inspector. Rev. W. Leslie Clay, B. A., performed the ceremony, and the young couple were supported by Mr. F. Temple and Miss Grace Wilson. Mr. and Mrs. Henderson left on the Rosalie for the Sound, where the honeymoon will be spent.

Waiting for Dredge.—Many inquiries are being made as to when the King Edward dredge is going to put in a re-appearance in Victoria harbor. George Riley, M. P., wired the other day that she had been ordered to proceed to Victoria "at once"; but no word of her movements Victoriawards has thus far reached the city. It is thought that she will not come until after the first of July, as then the appropriation made for harbor improvements will be available.

Typos Choose Officers.—Victoria Typographical Union, No. 201, held its regular monthly meeting on Sunday, and elected officers for the ensuing year, as follows: J. J. Randolph, president; W. H. Cullin, vice-president; Geo. M. Watt, secretary; Thos. Booz, treasurer; Robt. Holloway, sergeant-at-arms; H. Dods, J. W. Henley and W. E. Ditchburn, executive committee; J. Chrow and T. H. Twigg, delegates to Trades and Labor Council, with Geo. A. Coldwell as alternate; Jas. Pottinger, A. King and J. Chrow, auditors.

Excursion to Angeles.—On Saturday next, July 4, the steamer Clallam will make three round trips between Victoria and Port Angeles, leaving here at 8:30 a.m., 1:15 p.m. and 7 p.m. The citizens of Port Angeles have arranged to celebrate in grand style this year. There will be good horse racing, baseball between Victoria and Los Angeles nines, besides athletic sports galore. The celebration committee has engaged the Victoria City band to play at Port Angeles, and it will go on the first trip of the steamer, playing on the way over, also on last trip back.

Exhibition Prize List.—The prize committee of the British Columbia Agricultural Association met yesterday morning at the office of Secretary Swinerton, Mr. Christie, of the Victoria Poultry and Pet Stock Association, being present. The poultry division of the prize list was revised. Heretofore the prizes have been given to fowls in pairs, but this year the association will five first prizes of $1 and second prizes of 50 cents for the best cock, cockerel, hen and pullet, the change being considered more satisfactory, as there is difficulty sometimes in exhibiting poultry in pairs. The prize list is being actively pushed, and is expected to be completed at an early date.

Flower Sunday.—The annual flower service held at the Jubilee hospital on Sunday afternoon, under the auspices of the Daughters of Pity, was a very interesting event. There was a large attendance of visitors and the floral gifts were of great variety and abundance. The service opened with the singing of "God Save the King," after which came the introductory prayer by Rev. Elliott S. Rowe. Then followed an anthem, "Angels' Voices Ever Singing," with solos by Miss Grace King. The address was then read from Isaiah, chapter xxxv., the balance of the service being as follows: "Quartette, "God Is a Spirit," Miss King, Mrs. Currie and Messrs. Forrester and Taylor; solo, "For Ever With the Lord," Mrs. D. B. Christopher; solo, "Jerusalem," Herbert Taylor; solo, "O Rest in the Lord," Mrs. Currie; song, "The Plains of Peace," Miss Haughton; solo, "I Will Give You Rest," Herbert Taylor, and the benediction.

Visitor Heard From.—Francis E. Mellette, of Los Angeles, has forwarded to Herbert Cuthbert, secretary of the Tourist Association, a letter very complimentary in tone in respect to the good work being done by the organization. "I have by me," the writer says, "a little booklet called Picturesque Victoria, in the back of which is stated that a larger edition of same has been issued and may be had for the writing. Two years ago I passed through Victoria, at least the boat stopped there, and we spent four delightful hours in the park and riding around, and I was impressed strongly at the time that it would be a most lovely spot to spend our three-months' summer outing. A strenuous business life nearly drove it out of my mind, but this little book brought it back to me, and so I concluded to write to you for the larger booklet and any other literature you might have on the subject, and perhaps we shall conclude to arrange to spend the summer at Victoria."

Fletcher Re-elected.—F. H. Fletcher has been re-elected road foreman for Otter Point by a large majority.

In Chambers.—An order was made in chambers yesterday morning by Hon. Mr. Justice Walkem granting the application of the plaintiff in Hopper vs. Dunsmuir for a special jury. W. Moresby for plaintiff; A. P. Luxton for defendant.

Welcomed Home.—J. Critchley presided at a reception which was tendered Solomon Cadman on Saturday evening by residents of Saanich. Mr. Cadman had been absent for three years in the Old Country. Quite a crowd was present and a most enjoyable time was had.

Excursion to Langford.—Tomorrow, Dominion Day, an excursion will be run to Langford Plains, under the auspices of St. Andrew's cathedral. A large number will no doubt attend, as the fare has been placed at the very modest sum of 35 cents return. Refreshments will be served on the grounds.

Will Elect Officers.—At the regular weekly meeting of the Chamber of Commerce, which will be held this evening, officers will be elected for the ensuing three months, and other matters of importance dealt with. During the summer only two meetings per month will be held, instead of four, as heretofore.

Our Pulp Resources.—A survey of the timbered country lying between Quatsino Sound and the east coast of Vancouver Island is to be made immediately by John Murray, forest ranger for the provincial government. It is reported that the purpose of the survey is to determine the exact nature of the forest growth in that section of the province, in order to settle some points which have arisen as to the delimitation of pulp limits, and the adaptability of the wood for that industry.

An "Old-Timer."—A. G. McInnes, of Alexander, Cariboo, who with Mrs. McInnes, has just concluded a very pleasant visit to Victoria, left for home yesterday evening. Mr. McInnes is one of the oldest of the pioneers of British Columbia. He was a subscriber to the Colonist since 1859; "and," he said yesterday, "I have been a subscriber ever since." He came to Victoria in company with Mr. Justice Drake from Glasgow, Scotland. He naturally noted many charges in Victoria, and misses many of the old, familiar faces.

Socialist Lecture.—An interesting address on "Famine, Its Cause and How We Would Remedy It," was delivered by Mrs. C. J. Clayton at the regular public meeting of the Socialist party on Sunday evening. The speaker told of the fearful distress in India at the time of the famine; of the years of drought, when the taxes were the same as in years of plenty; and of the capitalistic exploitation on every hand. The remedy lay in making land and all other material resources of life common property. This is the Socialist philosophy.

Scale Attacks Mint.—During recent years all manner of destructive enemies have been attacking fruit trees and the product of the market garden, despite the utmost vigilance of growers. The latest growth to be ravaged in Victoria is the hardy mint, which is now being attacked by a scale. A study of the scale is being made at the Provincial Agricultural department, where Mr. J. B. Anderson, deputy minister, has been subjecting specimens secured to microscopical examination. The mint around the city is covered with the scale, the leaves quickly withering and dying.

Train Cancelled.—The regular 4 p. m. train on the E. & N. Railway has been cancelled for tomorrow, Dominion Day, and instead a special train will leave there at 1:30 p. m., which will remain at Duncans until 6 p. m., and then continue the trip through to Wellington. The same service will apply from Nanaimo, a special train leaving there at 1:30 p. m., remaining at Duncans until 6 p. m. and then continuing the run through to Victoria. The service has been arranged for the accommodation of those wishing to take in the mid-summer exhibition at Duncans.

Exhibition Tomorrow.—The mid-summer exhibition at Duncans tomorrow will attract a large number of visitors. The programme of athletic sports and races is an exceptionally good one. It includes a championship baseball game between the Fernwoods of this city and a picked team representing Duncans. A very suitable train service is in effect on the E. & N. Railway, trains leaving here at 9 a. m. and 1.30 p. m.; returning leaving Duncans at 6 p. m., passengers arriving here at 7:55 p. m. A reduced rate of $1 return for adults and 50 cents for children will be in effect.

An Exciting Experience.—R. B. Berks, traveler for J. Piercy & Co., had an exciting experience during a visit to the Cariboo district a few days ago. While crossing the Fraser river at Soda creek the ferry boat struck the rocks and was rapidly capsizing when the ferry man cut the ropes, which allowed the ferry boat to right itself. For a few minutes the situation was critical. The horses were frightened and commenced backing. Had they been wild, unbroken horses, they would certainly have gone into the river, and he with them. A huge tree in the river was primarily the cause of what was nearly a fatal accident.

Applicants in Error.—Mistakes are being made by applicants seeking enrollment on the voters' list for Saanich district. A number of applications have been sent to the Royal Oak instead of being delivered or posted to Maywood post office, where W. Graham, the collector of votes for Saanich district, is located. The applications sent to the Royal Oak were delayed ten days in reaching the collector. Whilst no harm has been occasioned in the present instance, still voters applying to register near the end of the time for receiving applications would run the risk of leaving their applications at any distance from the place where the collector is located.

New Postage Stamps.—Tomorrow the Post Office Department will issue new postage stamps, of which those who have had an opportunity of seeing copies speak approvingly, both as to design and workmanship. The stamps bear the likeness of the King, copied from the latest portrait of His Majesty, painted since his accession to the throne, representing him in Royal robes, scarlet and ermine and now in York house, London, the residence of the Prince of Wales. In each of the upper corners of the stamp is a Tudor crown, and in the lower corner, a maple leaf with a numeral indicating the denomination of the stamp. The portrait of the King is a striking and admirable likeness of His Majesty.

Last Sad Rites.—On Sunday afternoon the funeral of the late Thos. Cuniff took place from the parlors of the B. C. Funeral Furnishing Company. Services were conducted by Rev. W. Leslie Clay at the parlors and grave. Many of the members of the local Masonic order attended. The pallbearers follow: W. W. Northcott, P. J. Riddle, W. T. Phillips, A. Stewart, W. Trickey and C. E. Renouf. The funeral of the late John Whitfield took place yesterday afternoon, Rev. M. Bryant conducted the services and the following acted as pallbearers: M. Baker, A. Jones, N. Shakespeare, H. G. Ball, W. H. Gibson and T. G. Rayner. The remains of the late Frederick James Bailey will be interred this afternoon in the naval cemetery, the cortege leaving the late residence, Esquimalt Road, at 2 o'clock, and from the Soldiers and Sailors' Home at 2:30. Rev. J. P. Hicks will conduct the religious services.

Excursion.—The City of Nanaimo will make three trips on the Fourth of July to Port Angeles. The Fifth Regiment band will accompany her on each trip.

Picnic at Oak Bay.—St. Paul's, Victoria West, Sabbath school will picnic tomorrow at Oak Bay. Cars will leave foot of Henry street at 10 a.m.

Grass Fire.—The first grass fire of the season took place yesterday afternoon at the back of Mr. Haynes residence, at Oak Bay. Chief Watson and one man went out to the scene of action. The blaze was of no consequence and was soon under control.

Socialist Picnic.—The Victoria branch of the B. C. Socialist party will hold a basket picnic at Macaulay Point, foot of Lampson street, on Dominion Day. Cars leave Government and Yates streets at 10:30 a. m. Friends will be made welcome.

Testing Engine.—The fire department had the old Deluge fire engine out testing it yesterday afternoon on the corner of Broad and Johnson streets. The old pump has just lately undergone an overhauling, and it was found that some of the valves had not been set correctly.

Strikers Convicted.—At Ladysmith on Saturday last two Italian miners, John Chidron and A. Tate, were fined $20 each, or 60 days in jail, for intimidating and assaulting another miner of the same nationality, by the name of Alexander. The trouble grew out of Alexander voting to return to work at recent open-air meeting at Ladysmith.

To Build Creamery.—H. O. Allen, secretary of the Salt Spring Island Creamery Association is calling for tenders, which will be received up to Wednesday, July 8, for the erection and completion of a creamery building at Ganges Harbor, Salt Spring Island. Plans and Specifications can be seen at the B. C. Saddlery store, Yates street.

Newcastle Quarries.—Operations were commenced on Saturday last on the work of re-opening the stone quarries at Newcastle island, which have been leased by a San Francisco man from the Western Fuel Company. Some 50 men are employed at the task of clearing up the quarries, preparatory to the installation of improved machinery.

Progress of Voters' List.—The applications being filed with Harvey Combe, collector of votes for the city of Victoria, are not coming in as fast as they might. Some 2,000 have been filed, but these are only half of the number which is expected to be on the list. It would greatly facilitate work on the lists if applicants to vote would attend to the matter without any delay.

Affects Civic Employees.—There was some informal discussion at the council meeting yesterday evening, which would indicate that it is intended to extend the hours of labor of City Hall employees from 9 a. m. to 5 p. m. after July 1. At present all hands work up to 4 p. m. It was explained that some months ago a resolution was passed extending the hours, but it had not yet been made operative.

Sawmill Re-opened.—For the first time since the recent fire steam was turned on on Saturday at the Ladysmith Lumber Company's new saw mill at Fiddick's Junction. The mills have been rebuilt on a more modern scale and every preparation made for coping with a very busy season. A large number of orders for lumber are booked ahead, so the success of the enterprise is beyond question.

Knights of Golden Horseshoe—A well attended meeting of this order was held last night in Sir William Wallace Hall. Several matters of importance were discussed. It was unanimously decided to hold a picnic on the 12th July at Langford Plains. The members present were very enthusiastic, and it is the intention to make this picnic the affair of the season. Each Knight will have the privilege of asking a friend to participate in the fun and frolic.

Natural History Society.—At the regular meeting of the Natural History Society held last evening, the business consisted of revision and adoption of the constitution and bylaws, as an incorporated body, for the purpose of filing with the Registrar-General. At the close of the meeting it was decided to adjourn for two months, a meeting to be called in the meantime in case of action being deemed necessary for any purpose. It was also decided to divide the song birds which have been ordered equally between the Lower Mainland and the Island of Vancouver.

Will Vote Himself.—The return of Mr. Solomon Cadman to Saanich from England, will have a special interest to one Philip Robinson, alias Brocky Phil, who has been for some time a guest of the King, in the person of the jailer. Brocky Phil was the head of that filibustering expedition which went on board the steamer Iroquois to vote for Mr. Paterson, as stated in the evidence given in the public court at that time, at the North Victoria election, and it was in the name of Cadman that the chief witness in the prosecution which resulted in Robinson's going to jail, had cast his vote for Mr. Paterson.

For Mexico.—Mr. Thomas F. Gieger, so well known in this city and in the Yukon, will soon go to Mexico in the interest of a local syndicate, to acquire title to valuable mineral deposits, timber lands and water rights. His old Yukon partner, Mr. George F. Steily, also of Victoria, spent several months last winter in Mexico, looking over the field, and reports very favorably on the opportunities for investment in that country, if selected with ordinary business sagacity by one having a knowledge of the local customs and laws, which are, all reports to the contrary notwithstanding, very equitable to Mexican citizens and foreigners alike, and impartially administered.

The Orpheum.—This popular theatre, in spite of the counter attractions, draws a large house (and why not?). How a programme can be placed before the public for such a small sum (ten cents) causes many patrons of this famous theatre to wonder. Mr. Jackson, a gentleman well known in Victoria, has made his debut at the Orpheum and has made in theatrical parlance "a decided hit." Will Lamb, the colored comedian, also appeals to the public. His act is one that is clean, refined, and amuses the crowds that come to the Orpheum. Mr. Tracy, who sings the most beautiful song ever sung, and illustrated so beautifully, has made the family theatre of Victoria a great favorite place of amusement than it has ever been.

The Police Court.—In the Police Court yesterday morning John Baker, a soldier of the R. G. A., was charged with being the holder of a package that was all too large to carry without swaggering, and he was fined $5 on that account. Alice Smethurst, who had an equal load, was charged with being a vagrant. The police gave evidence that she was a loose and disorderly person—and Alice said that she was not, and that the police were real nasty mean things to say such things. She was sent to Warden John's for four months. F. Davis, alias J. Whitey, paid $50 for being an habitual frequenter of a bawdy house, and Alex. Doucet fled rather than loosen to a similar extent. He grabbed his small change and bought a steamer ticket. F. Powell did likewise, choosing to pay $3 for a steamer ticket and go, rather than pay $50 and stay. C. Harris was not served. Ah Chong, a Chinese who used his mouth as a starch holder and sprinkled clothes with his facial cavity, was fined $5, and Ralph Donaldson, the boy who stole the purse containing $16 from the matron of the Orphanage, was sentenced to one month's imprisonment.

Sons of Scotland.—A meeting of the Sons of Scotland was held last night in the Sir William Wallace Hall, and a lot of general routine business was satisfactorily disposed of.

Native Sons' Meeting.—The regular monthly meeting of Post No. 1, Native Sons of British Columbia, will be held this evening at 8 o'clock, when arrangements will be completed for the annual excursion, which this year will be to Tacoma, the new C. P. R. patalial steamer Princess Victoria having been engaged for the occasion. Grand Chief Factor J. S. Yates is expected to make his official visit this evening. A full attendance is requested.

JUVENILE OFFENDER ESCAPES.

Robert Hansen Makes Short Work of Locks and Padlocks at Reformatory.

Robert Hanson, who is doing time at the provincial reformatory, made a successful dash for liberty yesterday morning, shortly after 9 o'clock. Instructor Halliday allowed young Geldard, another inmate, to go out into the yard to empty a bucket. Mr. Halliday was watching Geldard through a window and saw that Geldard intended to attempt an escape from the institution. He quickly double-locked the door of the room in which Hansen and others were confined, and gave chase after Geldard. He succeeded in catching Geldard after about an half-hour run. In the meantime, though, Hansen had secured an axe-hammer and broken the locks on the door. Going out into the yard, he smashed the padlock on the gate and soon was at large. The provincial police were communicated with and the officers were at once detailed to run him down. Hansen is very resourceful for a juvenile, and may succeed in giving his pursuers a lively hunt before being captured. This is not the first time that Hansen has eluded vigilance at the reformatory. He recently gave himself up after roaming around the country for a few days. Upon being asked his object in going back voluntarily, he remarked to the effect that it was pretty slow at the reformatory, but that he could get out whenever he felt like giving the officials the slip. It seems that Hansen was not talking idly, for he has demonstrated that locks, bars and padlocks have no terrors for him, judging from the manner in which he made his escape yesterday.

GRANDAS CIGARS

Was Committed To Stand Trial

Alex. N. B. Gordon Went up to Higher Court on Charge of Theft.

Former Employees of Union Club Tell of the Alleged Robbery.

Alex. N. B. Gordon, former bartender of the Union Club, was committed for trial yesterday by Police Magistrate Hall in the Police Court on the charge of stealing a purse containing $75 from R. D. Graham, a visitor, four years previous to the day of his trial. The charge of stealing liquors, etc., from the club, not being pressed by the prosecution, was dismissed. Application for bail for the accused will be made by his counsel, Mr. Geo. E. Powell, this morning. Mr. J. H. Lawson appeared for the prosecution.

Geo. Gardiner, a former billiard marker of the club, gave evidence that he picked up the purse in question in the billiard room, which he opened, and said that it contained a roll of bills and some papers. It was his duty to turn articles found over to the bartender, and he gave it to accused, who placed it in the till. Ten minutes afterwards Gordon called him and said: "Here's $75 in here—you take this"—and he tendered witness $35 or $40—"I will keep the balance and destroy the papers and purse. Witness demurred, but accused pressed, and he took the bills. Next day he heard Capt. Palmer, the secretary, telling one of the members that Mr. Graham's purse had not been found, and he went downstairs to Gordon and said, "The best thing to do is to take this back (the bills) and turn it in." Accused then said: "Oh, go on, and don't get scared; that will be all right. Keep your mouth shut." He did not see the book again until a few days ago, when he saw it in the detective's office.

Sergt. Detective Palmer said he arrested accused on a warrant on June 19, on the charge above stated. With Detective Perdue and accused he went to Gordon's house on Third street, where the purse produced in court was found. He thought Mrs. Gordon said: "Whose purse is it?" Accused replied: "Graham's or somebody else's." On the way out the accused said he knew he had a purse at his house, and that was all that was to be found there. He said the purse had been given to him four or five years ago by Geo. Gardiner, and he always carried it with him, making no secret about it. It was not hidden.

Robert Higham, who was employed as bartender at the Union Club in 1899, with accused, remembered the loss of a pocketbook in June of that year, having seen an advertisement in the Colquist of June 30. This advertisement was identified by J. L. Tait, bookkeeper at the Colonist office, who was called—Mr. Higham stepping aside in the meantime. Mr. Tait produced the Colonist of the date with the advertisement. Mr. Higham, continuing his evidence, said this was the advertisement referred to. On June 29, 1899, Mr. Graham came into the bar and asked in the hearing of accused if witness had heard of a pocketbook being picked up. Witness turned to Gordon and asked him if he had heard anything about it. He said he had not. Mr. Graham told him what was in the purse.

The next time he heard about this pocketbook was about the middle of 1900. Witness met Gordon—his memory was not clear as to the exact place—and they had a conversation, during which, while talking of affairs at the club, accused asked if he remembered Mr. Graham losing and inquiring for his pocketbook. Witness said he had, and Gordon then produced the book, which he said was that which had belonged to Graham. Gordon then told witness of how the book had been found by the billiard marker, and of how he had cut up the money, telling the billiard marker to keep his mouth shut.

In cross-examination by Mr. Powell, witness said that he and Gordon had left the club at the same time. Gordon had been suspended, and he quit. He was then very friendly with Gordon. There had been some trouble about tickets, and when Gordon told him he had been suspended, witness said he would leave too. He had since heard that Gordon had said his suspension was due to witness.

This closed the case, and Gordon was then formally committed for trial.

With Two Ball Players

The Men Who Come to Play For Vancouver Are Back on the Sound.

Victoria Will Play Multonomah at Oak Bay on Dominion Day,

The Vancouver nine went to Nanaimo on Sunday—but the trio who were hired to load the team for its match against Victoria, went back to their teams on the Sound. Leitman, who pitched for the Vancouver team here on Saturday, who was hired for $50 from McClusky, manager of the San Francisco team, pitched for San Francisco at Seattle yesterday, when Seattle knocked him about the lot and beat San Francisco by 9 to 3. Stovall was to have pitched for San Francisco at Seattle on Sunday, but was met by an injunction there. Spencer, who caught here for the alleged Vancouver team, was behind the bat for Mount Vernon on Sunday, when the team beat Anacortes 5 to 0. Linehan remained with Holmes, but it was a question whether he would go back too.

The story is out now as to how Holmes managed to load up that team. It seems that a well known sporting man contributed some of the finances, and it was as a result of his talk with Holmes that the Vancouver manager telegraphed to McClusky, the manager of the San Francisco team, and by paying therefor, secured for him the services of Stovall and Leitman, and secured Spencer from Mount Vernon. Holmes jumped at the chance to load up his team, for he knew that if he brought his usual team to Victoria the local team would have made them look like a string of sausages that had fallen under the road roller, and as things were, had it not been for the errors of some of the local players, who were seemingly frightened when they saw the aggregation piled up against them, Holmes mixture would even then have been beaten. But, as has been chronicled, the locals fell down.

On Wednesday, Dominion Day, and on Thursday, the crack team of the Multnomah Amateur Athletic Club of Portland, Oregon, will play here. The Portland Oregonian, in a recent issue, speaks very highly of the team, and makes the claim that they are the fastest amateur nine in the State of Oregon. They have met and defeated most of the amateur and semi-professional teams in that State, and are now making a tour which will take in the cities of British Columbia and Washington. They will play the first games on their tour here, going from here to Vancouver, Whatcom, Mount Vernon, Everett and several other places. The team is composed of bona fide amateur players all of whom are members in good standing of the club which they represent, their team thus being a thorough representative one. During their stay in Victoria they will put up at the Driard.

The line-up of their team is as follows: Whitehouse and Gearin, pitchers; Stott, catcher; Zan, 1st base; Crawford, 2nd base; Fenton, short stop; Murphy, 3rd base; Oliver, left field; Cook, centre field; Dolph, right field.

The local team will line up with Holness in the box, Chase, catching; Smith, 1st base; Haynes, 2nd base; McConnell, short stop; Emerson, 3rd base; Moore, left field; Burnes, centre field; Potts, right field.

Wednesday's game will be called at 3 o'clock and Thursday's game at 6:30. Walter Wriglesworth will umpire.

On Saturday, July 4th, the Victorias will play at Port Angeles. An excursion will take many local fans over to see the game.

The game last night between the lawyers' clerks and the Oak Bay team, on the latter's diamoond, resulted in a win for the Oak Bays. The score was 18 to 4. The winning aggregation had the best of it from the start. They played a splendid game, and made very few errors. The law clerks were disorganized at the beginning, and did not seem to be able to pull themselves together. Dick Lowe pitched a splendid game, and let very few men off on balls. If he had better support the score would have been different. J. O'Keefe was steady behind the bat, but could not get the leather down to second at all. The outfield made some very bad errors. Their battery was weak, and all together, gave a poor exhibition of ball. The Oak Bays had the clerks fairly going in the second and ninth innings. In the former they piled up seven and the latter four. The winning team are a very fair aggregation, and will in time give some of the intermediates a good hard rub. The score by innings follows:

Oak Bay	2	7	2	1	2	0	0	0	4	—18
Law Clerks	0	2	1	0	0	1	0	0	0	—4

The Turner-Beeton fans, after a fast and furious game at Beacon Hill last night, succumbed to the speedy nine from Rithet's The score was 11 to 10. The batteries for the winning side were as follows: Rithet and Shanks; for the losers, Pettingill and Sutherland.

The Challoner-Mitchell baseball team showed the Hinton aggregation last night at Beacon Hill, that they were as handy in flitting round the diamond as they are in setting the sparklers. The jewelers defeated the latter nine by a score of 24 to 22.

A NEW LEAGUE.

The following business baseball teams are requested not to forget to send two delegates to the meeting to be held this evening at 6 o'clock in the Colonist office for the purpose of forming a league: Freedmen, Furniture, Printers, Wholesale Grocers, Wholesale Dry Goods, Electricians, Jewelers and Hardware.

BEAT THE GROCERS.

The grocers on Sunday morning at Beacon Hill, went down to defeat at the hands of the feedmen's baseball team. The score was 18 to 10.

MATCH TONIGHT.

The Law Clerks will play the Hudson's Bay aggregation a practice match this evening at 6:30 p. m., at Beacon Hill.

LEAGUE GAMES.

National.

At New York—New York-Pittsburg game postponed on account of rain.

Toronto—There was no ball game at Diamond park today, the scheduled contest between Toronto and Newark having been postponed until tomorrow.
At Rochester—Rochester-Providence postponed on account of rain.
At Buffalo—Buffalo 2, Jersey City 3.
At Baltimore—Baltimore 7, Worcester 8.

American.

At Detroit—Detroit 3, Washington 0.
At Chicago—Chicago 2, Boston 7.
At Cleveland—Cleeland 6, Philadelphia 1.
At St. Louis—St. Louis 3, New York 6.

LACROSSE.

The local lacrosse boys, although they have been defeated twice this season in succession, they are not in any way discouraged. It will be seen on Wednesday at Vancouver that the boys have as much spirit now as ever they had. It will be a sorry look out for the Terminal City aggregation unless they are sound in wind and limb, as our boys are in the pink of condition. The team that will leave this evening is a great deal stronger than the one which played New Westminster. Some of the old players here claim it is even stronger than the team that were defeated on the 24th of last month at the Caledonia grounds by the Vancouvers. The team that leaves tonight on the Charmer will be composed of the following names: Richmond, McConnell, R. Dewar, C. Pike, T. Crocker, W. Laing, W. Farrall, C. White, C. Taylor, G. H. McDonnell, H. Jesse, F. White, S. Peel and G. Simpson. The positions have not been alloted yet. Geo. Snider and J. M. Mellis will journey with the boys, and both are willing to don the blue and white if an occasion arises. The Victoria Lacrosse Club wish to thank Mr. Geo. Snider for the jerseys he so kindly donated the club.

JUNIORS GO TOO.

The junior lacrosse players from the Central school, will go with the seniors to Vancouver tonight, to play the junior Argonauts of the Terminal City. The local boys have been training assiduously for some time, and are confident of victory.

ATHLETICS.

There will be a meeting of the N. P. A. A. committee this evening at the J. B. A. A. for the purpose of making definite arrangements for the big meet to be held here this summer.

THE WEATHER.

Meteorological Office,
Victoria, June 29.—8 p.m.

SYNOPSIS.

Light rain has fallen at Barkerville but fair weather has been general elsewhere west of the Rockies. Temperatures have been below normal in this district, but higher between the ranges and warmest in the Sacramento valley. In the Northwest thunderstorm conditions are again prevalent. A marked area of low barometric pressure is centered in Alberta and thunderstorms have occurred at Calgary and Swift Current. Rainfall has been light and in other sections the weather has been fair and somewhat warmer.

TEMPERATURE.

Why Pay as Much

for an inferior beer?

Schlitz beer costs twice what common beer costs in the brewing. One-half pays for the product; the other half for its purity.

One-half is spent in cleanliness, in filtering even the air that touches it, in filtering the beer, in sterilizing every bottle. And it pays the cost of aging the beer for months before we deliver it.

If you ask for Schlitz you get purity and age, you pay no more than beer costs without them.

Ask for the Brewery Bottling.

Slater Shoe Advertising

"Sight—unseen"

Short talks by the Slater Shoe ad man, No. 10.

The one thing that literally makes or breaks a shoe, is the insole and it can not be seen, felt or tested till worn.

A poor insole means a stitch-cut outsole, loose stitches, ripped uppers, causes mishapen, shrunken, stretched, unsightly, short lived shoes.

A good insole is all that a poor one cannot be—it is the keystone to the arch—the steel skeleton of the tall building

But you have got to take it "sight-unseen"—must trust to the stake the maker hangs on his own honesty

—and the stake that's hung on the honesty of the "Slater Shoe" is the expenditure in six years of a hundred thousand dollars for advertising and the trade commanding capacity of a quarter million dollar trademark.

That is your protection when you buy and wear the "Slater Shoe" and it's the only one of its kind in Canada.

The Slater Shoe

Made in Canada 40 years. Goodyear welted.
For men $4.00 and $5.50.
For women $3.50 and $5.00.

DINNEFORD'S MAGNESIA

The Universal Remedy for Acidity of the Stomach, Headache, Heartburn, Indigestion, Sour Eructations, Bilious Affections.

The Physician's Cure for Gout, Rheumatic Gout and Gravel.

Safest and most Gentle Medicine for Infants, Children, Delicate Females, and the Sickness of Pregnancy.

MAGNESIA

I CAN CURE YOU.

Men and Women with Back Pains, Rheumatism, Nerve Weakness, Indigestion, Constipation, Liver, Kidney or Bladder Troubles can be cured by

DR. McLAUGHLIN'S ELECTRIC BELT.

Thousands of people are suffering for the want of the life-giving current which nature intended they should possess. They do not live, they simply exist. In their faces you can read the story of a wasted life and blighted hopes; joys and pleasures are unknown to them, because their vitality is being sapped.

Many have sought relief in drugs and patent remedies to relieve their mental and physical suffering. They are soothed for a day, or may be a week, falsely braced up, until, the effects of the drug wearing off like the momentary bracing of whiskey, they sink still lower in vitality, and, with hope exhausted, lose confidence in themselves and decide to abandon all efforts to recover their power, feeling that there is no help for them. Do not sacrifice yourself in this way. Do not endure this living death while Nature holds out to you relief in the form of Electricity—that vital element of which, by a life of dissipation, you have deprived yourself—tearing down faster than Nature could rebuild. In this great restorative—ELECTRICITY—there is life and happiness for you.

I believe the best argument as to the curative power of my Belt is a word from some of those who have tried it. Should you not know any of them write and tell me where you live, and I will give you the name of a man in your town I have cured.

These Grateful People Appeal to You.

The doctor at the "Soo" told me that I was suffering from varicocele. The parts have now regained their natural firmness and vigor. Your Belt also entirely cured me of dyspepsia.—D. B. WINTERBOTTOM, Wawa, Ont.

My health has been better than it has been for years. I would recommend the Belt to anyone troubled with a weak stomach.—WATSON ALLEN, Lower Burlington, N.S.

Your Belt has entirely cured me of rheumatism, with which I had suffered for many years.—JAMES WHALEN, Rowanton, Que.

I have worn your Belt. I was troubled with indigestion. I now feel like a new man without a pain or an ache and have gained eight pounds.—CHAS. TEMPLE, Masonville, Ont.

Now I do not suffer any pain at all, and can highly recommend the Belt to any person suffering from stomach trouble.—J. McKENZIE, St. Thomas, Ont.

FREE CONSULTATION. Call if possible. I will talk over your case with you. If you cannot call write for my FREE BOOK. It describes my method of treatment and gives you prices of my Belt. All letters are given personal attention. Statement blanks will be sent you, and upon receipt of them I will at once advice you whether my Belt will cure you or not, and the cost. I hold all letters strictly confidential. Write at once. Don't delay.

CLOSING OF THE DISTRICT SCHOOLS

Reports of the Exercises Last Week at Colwood and Ladysmith.

Following are reports of the closing exercises held last week at two of the district schools—Colwood and Ladysmith:

COLWOOD.

The Colwood school closed on Thursday last with the usual examinations in the school house in the morning, and from there the children marched down to Mr. Walls' property, where luncheon was served under the trees. Races, games, etc., made the afternoon pass quickly, and after supper the party, some 60 people in all, dispersed, voting the thing a thorough success. The prize and promotion lists are as follows:

Roll of Honor for Deportment—Eliza May De Rousie.

Roll of Honor for Punctuality and Regularity—Arthur F. Wale.

Prize for Neatness—Stanhope Peatt.

Prize for Map Drawing—Arthur Wale.

Prize for Writing.—First, Phyllis Peatt; second, Edith Marshall.

Prize for the most perfect tickets—Stanhope Peatt, 117; Phyllis, 107; Arthur, 101; May and Tena, 100.

Prize for Grammar—Tena Stubbs.

Prize for Geography—Goody Wille.

Prize for Industry—May de Rousie.

Prize for History—Leslie Peatt.

In maps, Stanhope's is the best, but as he has already two prizes it has been awarded to second.

PROMOTION LIST.

From Junior 4th to Senior 4th Class—Arthur Wale 1st; Phyllis Peatt.

From 3rd Grade to Junior 4th — Tena Stubbs, Goody Wille; conditionally, Edith Marshall, Leslie Peatt.

From 1st Primer to 2nd—May de Rousie.

The result of the High School entrance examination not being known, no award for proficiency can as yet be made.

No promotion was made from 2nd to 3rd or 1st to 2nd grades, as these took place in March last.

LADYSMITH.

A good number of parents and friends attended the Ladysmith Public School closing. Some spent all their time in one room, others visited several or all of the rooms, and all expressed themselves as pleased with the progress shown by the pupils in the various rooms. Each room had its own little programme of songs, recitations, drills, etc., interlarding the samples of class work.

There were present Ven. Archdeacon Scriven, Rev. G. Tanner and Rev. Mr. Walker, each of whom gave brief addresses in some of the rooms.

The school was at a disadvantage in not having a convenient hall in which all the pupils could assemble for closing exercises, presentation of prizes, etc.. Rolls of honor were awarded as follows:

First Division, T. J. Barron, teacher:—
Proficiency—Henrietta B. Hutchison.
Regularity and Punctuality—Blanche Bryden.

Deportment—Annie Mayovsky.

Second Division, E. Huggard, teacher.
Proficiency—Jessie Dunsmore.
Regularity and Punctuality—Ellen Croston.

Deportment—Arthur Kerr.

Third Division, Miss Wren, teacher:—
Proficiency—Agnes McMillan.
Regularity and Punctuality—Ethel Croston.

Deportment—Michael Mayovsky.

Fourth Division, Miss John, teacher:—
Proficiency—John Davidson.
Regularity and Punctuality—Elizabeth Waugh.

Deportment—Samuel Rafter.

Fifth Division, Miss Frame, teacher:—
Proficiency—Florimond V. Delcourt.
Regularity and Punctuality—Anna J. F. Fisher.

Deportment—Catherine S. Hunter.

Sixth and Seventh Divisions to be reported later.

CROFTON CULLINGS.

An election of School Trustees was held here Saturday last, the contestants being three ladies and three of the sterner sex, with the following result:

J. T. Pearce, 35 votes; L. Pollard, 31; J. Pepmeiss, 27; Mrs. Conlin, 21; Mrs. Taylor, 15; Mrs. Ross, 12.

A barge containing 13 cars of coke arrived from Union Saturday.

The steamer Otter, with 150 tons of ore from the West Coast; also the steamer Trader from Texada Island, with a like amount, are here unloading. Messrs. Bellinger of the Crofton smelter, and Ex-Gov. Dewdney, arrived on the steamer Otter from the West Coast and left for Victoria Sunday morning.

Henry Bensen of Victoria, paid Crofton a visit last week.

Registration of voters goes merrily on, nearly 50 names already having sent in applications.

It is expected that the smelter will blow in this week, and as the ore on hand is sufficient to run her steadily for three months, with more coming in each day, the outlook is prosperous.

Quite a few miners are here from Montana to work in the Lenora.

FINANCIAL AND COMMERCIAL

New York, June 29.—Today's stock market showed more animation on a strongly rising scale for the first two hours, was considerably in excess of the average for the full daily trading of last week. The market closed very active and strong, with the top level well maintained. Gains of 1 to 1¾ was general among leading active stocks. Reading was the leader of the day's market, with its advance of 2¾ on the purchase of enormous blocks on a constantly rising scale. The Pennsylvania group of coalers was conspicuous throughout and Pennsylvania itself broke through the opposition, which held it for a time at 125 and rose to the best in the late dealings. The grain carriers were later to respond, but they came forward vigorously in the final dealings, with the Pacifics leading. The buying gave rise to renewed surmises as to possible near adjustment of relations and control in the field of the trunk lines and coalers as an outgrowth of the final lodgment of the new Pennsylvania stock. The apprehension that with the completion of the Pennsylvania stock subscription, the motive for support of the stock by the underwriting syndicate having passed, the price would give way, was seen to be without ground today. The ability of the money market to carry through this great operation has detracted from the fears of a money squeeze in meeting the July West requirement. The special strength of Reading was connected with rumors of a coming increase in the dividend disbursements of the stock of the company.

New York, June 29.—The following were the closing bids on the Stock Exchange today:

Chicago, June 29.—The following were the closing prices of futures on the Board of Trade today: Wheat, 89; old, 80⅝; July, 74. Corn, Dec., 49¼; May, 49⅛. Oats, June, 39½; Sept., 34⅛; Dec., 34¼; May 35⅞.

London, June 29.—Lead, £11 15s.

PHYSICAL WEAKNESS.

A Dangerous Invitation to Pneumonia and Fevers of All Kinds.

With the increasing strain of modern life, the power and vigor which characterized our forefathers is growing less and less. Nervous wrecks so common in the generation were unknown in the olden days. Life was not so strenuous, and more attention was paid to the ordinary rules of health.

The average individual to-day is working to the limit of his powers. When an extra strain is imposed the nerves get on edge, digestion goes wrong, and because there is no reserve to fall back upon, ill health is inevitable.

For a thousand reasons weakness is a sin against your own body and a sin against your family. The wise man will keep up his vitality by using Ferrozone. One tablet taken at meal times works wonders. It says to the stomach, "Do your work properly," and assists that organ in doing so. It makes digestion just perfect, and converts everything you eat into the kind of nutriment valuable in forming rich blood, the real secret of health.

Ferrozone continually carries on a process of rebuilding, and develops a wonderful reserve of strength. It brings back lost color, banishes weakness, weariness, headache, backache, nervousness, and cures all derangements of the stomach, bowels, kidney and liver. You may use Ferrozone with the utmost confidence. It's not like other remedies. It is different because it cures. Price, 50 cents per box, or six boxes for $2.50, at all druggists, or by mail from The Ferrozone Company, Kingston, Ont.

Ferrozone assures health.

The man who feels that he is fully appreciated has yet to be born.

Mrs. Forken—Did you find it all like home at Joyce's?

Mr. Forkin—Very. His wife nagged him the whole blessed time.

Impaired Digestion

Verdict of Wilful Murder

Returned Yesterday Morning By Coroner's Jury Investigating Tragedy.

Doctor Humes Believes Revolver Was Fired From Distance of Few Inches.

Wilful murder was the verdict of the coroner's jury which sat at the Esquimalt school house yesterday to inquire into the circumstances touching the tragic death of Frederick J. Bailey yesterday morning. The jury, after hearing the evidence, brought in a verdict without deliberation, that "Frederick James Bailey had been feloniously and wilfully, and with malice aforethought, unlawfully murdered by party or parties unknown. For this murder Alfred Frith stands charged."

There were few present other than the jury and officials. The jury consisted of the following: Duncan Grieve (foreman), J. Craig, R. Cadwallader, R. H. Nunn, Henry Mesher and M. Jeeves. Supt. Hussey of the provincial police was present, and Mr. Geo. E. Powell, who represents Frith, charged with the murder. Other than these, the audience consisted of one man.

Dr. Humes, of the Naval hospital, was the first witness. He made the post mortem on the body of the diseased. He had found the hair and skin at the back of the neck scorched on the right side. Across the fingers of the right hand there was a blood stain, and a bruise about the right eyelid. He had found on opening the skull that the course of the bullet had been from the back of the neck at the base of the skull upwards to the right eye. The bullet had fractured the bones where it came into contact with them. There was a considerable fracture of the skull at the base. There was no possibility of the accused having shot himself. He would judge that the weapon had been held about four inches from the back of the head.

Sergt. Thos. Lough, a lance sergeant of marine, had been on duty on Saturday morning, and about 10 o'clock had been called into the office of Mr. Grundy, who gave him an order not to allow Frith to leave the yard. He found that Frith had already gone, and when he reported this, he was asked if he had seen Bailey. He said he had not seen him since 7:40 a.m., when he saw him with Frith walking up the yard. He later met a sergeant of marines and a laborer, who were searching for Bailey, and he heard that Frith had reported that he had killed Bailey. Bailey's key was missing. He was ordered to take out all the men and make a search, and at 11 a.m. he got in through a window into the B Storehouse, where he saw the body of Bailey lying face down in a pool of blood. He called Butler and Russell, two of the search party, and when they reported, the chief boatswain ordered the door to be broken in. They then went out and signalled to the flagship for a medical officer. Afterwards they found the key of Bailey's store, which was missing, in his left hand. The key, which was taken from the dead man's hand, was produced as an exhibit. He saw no weapon, no stick or stave in the room where the body was found.

Dan Campbell, provincial police officer at Esquimalt, said he was leaving his house at 9:20 a.m. to come to Victoria to attend court, when he saw Frith coming from the village. Frith looked up towards witness' house, and waited for witness on the cross roads at the dry dock. After the customary salutations, Frith asked where witness was going, and when he said he was going to Victoria to attend the court, Frith remarked: "You'd better stay around for a while; your services will be required. Witness asked what he meant, and Frith replied: "Oh, you'll know in time—you'd better stay around." Witness said he could not remain around then, as he had to attend court at 10 o'clock. The car was then coming down the hill, and witness went to it. He was about to step on the car when Frith whistled and called him back. He asked the conductor to hold the car a minute, and ran back to Frith, who said: "You can tell the car to go on. I've made up my mind to tell you what I know about this matter." The car went, and witness and Frith walked down to the cross roads at the dry dock, where Frith said: "I've made up my mind to tell you what happened. I killed Bailey this morning!"

Witness said: "Go on! You're fooling, aren't you, Frith?"

"No," he replied; "I mean what I say. I killed Bailey."

Witness said: "Oh, go on; you're crazy! You've been drinking again!"

"No," said Frith; I've not. Bailey's dead."

Witness asked him what he had killed Bailey for?

Frith replied that he had had trouble down at one of the stores.

Constable Campbell then asked him where the body was, and he replied that it would be found soon enough. Then witness and he went to the Ship Inn and had a drink. After they had a drink Frith said: "Well I'm going home to breakfast now. Call on me in two hours and take me in charge."

The coroner—"Did you believe him?"

Witness said he did not. He had known Frith for years, and had known that he had been drinking of late, but he thought it was not wise to arrest him until he made further investigations. Had it been a stranger he would have arrested him at once, but knowing Frith as he did, he could not believe what he had heard. Frith then left him and he went to the nearest telephone and 'phoned to the head office in the dock yard. He enquired if Bailey had reported on duty that morning. When they replied affirmatively he asked if they knew if Bailey was at his store. The office staff replied that as far as they knew he was, and they wanted to know why witness was questioning them. Witness replied that he had heard that Bailey was missing.

Witness then went to the naval yard himself, and went to the head office and reported the matter to Mr. Davey. He at once sent the carpenter of the work's department with him, and they broke open the door of Mr. Bailey's store, where witness thought, if such a thing as stated by Frith had occurred they would find the body, but they found no trace of the missing man there, and could not find him. Then witness 'phoned to the provincial police office and told them that a murder had been committed. He received orders to arrest Frith and take him to the office. He found Frith at his house and took him to Victoria. He asked Frith why he had killed Bailey, and he said he had done so in self-defence. He had no conversation with Frith on the way to Victoria.

The coroner then addressed the jury, and he said that he would remind the jury that their duty was to bring in a verdict from the evidence, and not consider aught else they had heard. He considered the evidence clear, and thought that the jury would not have the slightest difficulty in reaching a verdict that Bailey had been murdered. He said the jury could not do else than bring in a verdict of murder, but as to whether they said that deceased had been murdered by Alfred Frith or parties unknown rested with them.

Constable Campbell was then recalled and questioned regarding Frith's condition. He said that at the time Frith made the statement to him he appeared sober and rational, but witness knew that he had been drinking for some time. He had something to drink that morning, but he was not drunk.

After a minute's deliberation the foreman of the jury said: "We've decided that Bailey was wilfully murdered, that's simply our verdict."

The Coroner—"By party or parties unknown."

The Foreman—Yes.

A verdict was then drawn up to the effect that Frederick James Bailey had been wilfully murdered by party or parties unknown.

MUCH UNCALLED FOR CASH HERE

Interesting List of Unclaimed Deposits Lying in Victoria Banks.

Among the thousands of dollars which are advertised as lying unclaimed in Canadian banks are the following balances reported by the Bank of British Columbia, which is now incorporated with the Canadian Bank of Commerce. The data is compiled from the official record by the New Westminster Columbian:

"The list commences with $45.85 left at Victoria 35 years ago by the assignees of J. Wilkie and B. S. Levy. Our old friend John Brown put in $29.75 in 1889, and seemingly went marching on without it. One W. J. Bagoe deposited $100.40, "account Herman," in 1872, but Herman no doubt has gone to the grave without it. Mrs. W. Botterill, then of Chemainus, left $550 at Victoria in 1888, and did not call again. Joseph Dwyer was even more prodigal; $700 is his deposit, uncalled since 1895. D. Johnson's $29.01 dates from only 1893; but one P. Holen has gone since 1876 without an even $100 he then deposited. George Muskett makes a record with $924.67, at rest since 1892. S. McGauley chipped in $326 a year later. James Patterson, who ought to find kin, left $34.50 in 1889. An even $100 by Thomas Price dates with the earliest, in 1876.

"Then there comes the evidence of corporate carelessness in $94 on deposit for the 'Vancouver Rowing Club,' put in in Victoria in 1873, before the present club of that name was dreamed of, or what we now know as Vancouver had been so much as suggested. C. Williams, of Colwood, in 1893, may have $63.55 on demand: and Miss H. M. Wood, of Victoria ten years ago, is invited to call for $50.18. The Merchants' Exchange Club, in liquidation, have had $77.19 to their account since 1896, and why the liquidators do not prove up is a puzzler. Joseph Heckler laid by $100 in 1896, and since it never rains in Victoria his day of need has not dawned. A supplementary list for Victoria has the substantial items of $1,726 and $1,200 as to which the depositors, respectively, May Campbell and Mrs. Maria Langdale, have not been heard from since 1897."

NO ROOM FOR HIM.

The reckless automobilist pulls up at the foot of a cinder path and toots two or three times, until the iron gate of the warm regions opens cautiously.

"What do you want, sir?" asks Mephistopheles.

"Want to come in," answers the automobilist.

"I guess not!" cries Meph. as the door clangs shut. "There's trouble enough in here since I admitted a bunch of golf players. They've got all my imps caddying for them. If I let you come in you'll make this place too hot to hold me."—Judge.

Duncans and return one dollar. Shawnigan Lake fifty cents. Goldstream thirty-five cents. Children half fare. Dominion Day, Wednesday, July 1.

Sea Baths Must Wait

Council Has No Money To Assist Foul Bay Project This Year.

Aldermen All Favor Idea But Have No Other Alternative.

Decision to Lay Permanent Sidewalk in Front of Dominion Hotel.

The sea bathing proposition received its quietus at last evening's meeting of the council—the Finance committee reporting that no funds were available for an appropriation. All the aldermen were in favor of the project, but there was no help for it but to turn it down. Beyond this only routine business of an unimportant character was dealt with.

Mayor McCandless presided, and all the aldermen were present.

The B. C. Electric Railway Company, re the moving of the track on Douglas street over the water main, wrote saying they laid the track there at their own risk, and would repair any damage which might result. Received and filed.

The secretary of the Board of Trade, regarding the visit of the delegates to the Chamber of Commerce of the Empire, wrote saying that he was informed the party would arrive on the 8th and remain three days. They will travel in parties of 50. Received and filed.

The Tourist Association extended an invitation to attend the Douglas Summer Gardens. Received and invitation accepted with thanks.

Thornton Fell called attention to the dangerous state of the sidewalk on School street, the Water Works Department having left the same in bad condition. Referred to Water Commissioner and city engineer with power to act.

F. B. Gregory suggested that the regulations re plumbing inspection be changed to permit of inspection being done at hours more convenient to householders.

Ald. Barnard pointed out that the change suggested was very desirable, the letter was referred to the plumbing inspector.

P. S. Lampman drew attention to the necessity of appointing fence viewers. He had differences with owners of property adjoining his own, which he could not get settled. Referred to the city solicitor for report.

W. Ridgway Wilson, re Carnegie library plans competition, asked that it be explained to him wherein the plans be submitted did not comply with the conditions?

On motion of Ald. Barnard, it was decided to inform Mr. Wilson that the council was not disposed to furnish the information he asked for, the council having accepted the judges' report.

E. A. Lewis asked for an electric light on corner of Bay and Second streets. Referred to Electric Light committee.

John Haggerty offered rock for Dallas road retaining wall at $1 per yard. Referred to city engineer for report.

J. L. Hughes asked for a new sidewalk on Beechey street. Referred to Streets' committee.

W. J. Dowler, city clerk, wrote as follows:

Gentlemen,—I have the honor to inform you that since the last meeting of the City Council the following communications have been received and referred to the City Engineer for report, viz:

Lucy Coures, asking that a permanent sidewalk be constructed on the south side of Yates street, between Blanchard and Douglas streets, in front of her property there.

A. W. Knight, requesting that the sewer on Cook street be extended up Pandora street, so that sewer connection can be made with his premises.

W. J. Richards, asking that a sidewalk be laid down on Cadboro Bay road.

George Rudd, calling attention to the condition of the sidewalk on Rock Bay avenue, between Bay street and Rock Bay, and on the west side of the said avenue.

Received and filed.

The Water Commissioner advised calling for tenders for quantity of clean sand for filtering purposes. Adopted.

The city engineer reported as follows:

Gentlemen,—I have the honor to submit the following report for your consideration:

Communication from Thos. Jacklin re drainage nuisance on Hulton street, from Oak Bay avenue northerly. I have examined the above locality and find the open ditch in bad condition. I may say I have reported favorably upon a pipe, or box ditch for the entire length of the street. If, however, this cannot now be done, I would recommend the ditch on Foul Bay road be deepened and improved to Hulton street, at an early date. Estimated cost $150.

Communication from Stephen Jones, asking that a permanent sidewalk be laid opposite the Dominion hotel property, south side of Yates street. I have looked into the matter, and am of opinion it would perhaps be best to complete the entire block between Blanchard and Douglas streets, if funds are available. Total estimated cost opposite Dominion hotel property, $450.

Referred to Streets' committee.

The standing committee on Finance recommended the payment of accounts amounting to $2,318.36. Adopted.

The same committee recommended awarding the contract for alterations to the jail to George Snider for $1,874.50. Adopted.

The Finance committee could not see its way clear to recommend an appropriation for the purposes of establishing sea bathing at Foul Bay.

Ald. Stewart put forward the idea that it might be a good plan to establish gates up the Gorge so as to make better facilities for bathing. The beach could be cleaned up and the place made very attractive. It would not entail much expense, probably $2,000.

The report of the committee was adopted on the following vote: Ayes—Dinsdale, Cameron, Grahame, Yates, Stewart and Kinsman: noes—Ald. Barnard, Vincent and Goodacre.

It was explained during the debate that all the aldermen were in favor of sea bathing being arranged for, but a shortage of funds prevented an appropriation being made.

Representatives of the city on the Jubilee hospital directorate were re-elected.

The council then adjourned.

A TROLLEY MERGER.

Cleveland, June 29.—The stockholders of the Cleveland Electric Railway Company today formerly ratified the agreement of consolidation between that company and the Cleveland City Railway Company. It was voted to increase capital stock from $13,000,000 to $23,400,000 in order to purchase outright the Cleveland City Electric Company. The merger becomes effective July 1.

WAR IS IMMINENT.

Turkish Persecution of Bulgarians Render an Outbreak Probable.

London, June 29.—A despatch from Vienna to the Morning Leader says the situation in the villayet of Adrianople is very grave. There are many indications that Turkey and Bulgaria regard an outbreak of war as a probable contingency. It is reliably stated that the Turkish authorities are organizing a regular persecution of the Bulgarian inhabitants, their villages being razed to the ground and many prominent Bulgarians being imprisoned on the slightest pretext. The Turkish troops in the villayet number 14,000.

Meat Pool At Dawson

Largest Dealers Combine Their Interests to Keep Up Prices.

Restaurants and Hotels Join Hands to Fight the Merger.

The Pacific Cold Storage Company of Dawson, and P. Burns & Co., the largest meat dealers in the North, have pooled their interests to keep up the prices of meats, says the Seattle P.-I. Meats will be no cheaper here next winter than last winter. The announcement is made by Louis Troughton, manager of the Pacific Cold Storage Company, who has just returned from a visit to the headquarters of the company in Tacoma. The Pacific Cold Storage Company, Troughton also announces, has secured the contract to supply the United States military and telegraphic posts in the Yukon basin with fresh meats. Two thousand cattle will be brought into the Yukon basin by the company this summer by the White Pass route, and three loads of refrigerated meats will be brought up the Yukon River by way of St. Michael on the steamer Robert Kerr.

The P. Burns & Co. establishment is the heaviest cattle and meat dealer in Western Canada, and has branches in Dawson and White Horse. The company has re-organized its northern service under the name of the British Yukon Meat Company, Limited. The Pacific Cold Storage Company has an interest of 10 per cent. or less in the British Yukon company, and thus a sympathy is created which ensures the two concerns working in harmony for the maintenance of prices in the field they occupy.

The only opponents these two companies have in the Yukon basin are individual dealers who ship herds of cattle at intervals, and have not extensive refrigerator plants for the keeping of stocks. Yet these individual companies do much toward helping the camp oppose monopoly.

The Pacific Cold Storage Company has five or six branch shops in the Klondike creeks where retail and wholesale trade is carried on with heavy mining companies and the smaller operators and individuals. Mr. Troughton says the meat companies will have to hold the price of meat as high as last winter in order to protect themselves against loss.

Capt. Constantine, who has been appointed to establish the first Northwest Mounted Police posts at the mouth of the Mackenzie river and on the Peel river, is the man who established the first post of the organization in the Yukon. It was established at Forty-Mile a few years before the Klondike strike was made. It is said that the posts on the Mackenzie are designed to check lawlessness of American whalers at the mouth of the river.

Five or six of the largest restaurants in Dawson are combining to fight the Dawson meat pool. They declare the prices asked by the members of the pool for meat is out of reason, as compared to prices of other commodities they consume. They intend to import cattle or dressed meat themselves. The statement is made by the restauranteurs that they can land meat here for 20 cents a pound. The meat companies ask 20 cents, wholesale.

It is possible to bring fresh meats in private shipments from Seattle to Dawson by cold storage in the summer. The coast steamers have refrigerators, the White Pass has refrigerator cars from Skagway to White Horse, and refrigerator accommodation for several tons of meat on some of its steamers plying between White Horse and Dawson. If they choose, the restaurant men can do as some other importers, and bring their live stock to Dawson on the hoof.

The Dawson restaurant men who intend to do their own importing say they may also bring in cream, butter and some such other staples. They claim to consume a third of such articles, and a third of the meat consumed in Dawson.

The man who sits down to wait for a golden opportunity never has a comfortable seat.

Piles To prove to you that Dr. Chase's Ointment is a certain and absolute cure for each and every form of itching, bleeding and protruding piles, the manufacturers have guaranteed it. See testimonials in the daily press and ask your neighbors what they think of it. You can use it and get your money back if not cured. 60c a box, at all dealers or EDMANSON, BATES & Co., Toronto.

Sick Headache—Lack of Appetite.

It's glorious to feel right in the morning—ready for work. But how seldom one does. Sick headache, lack of appetite, disagreeable taste in the mouth—these are the usual morning feelings of most people—even of careful livers. This morning illness shows that the organs of digestion are not working properly. They need a tonic. Take a teaspoonful of

Abbey's Effervescent Salt

in half a glass of water as soon as you rise—you'll be ready to do justice to a good breakfast.

Abbey's Effervescent Salt cleanses the bowels and intestines, invigorates the fagged out stomach and energises the torpid liver.

At all Druggists.

Three Doctors Failed to Cure

Neighbors Astonished at the Wonderful Effects of Dr. Chase's Kidney-Liver Pills.

Mr. Michel Therriault, St. Jacques, Madawaski, Co., N. B., writes: "I am now completely cured. For three months I used Dr. Chase's celebrated Kidney-Liver Pills, and they have accomplished this marvelous result. I was very much discouraged; could not sleep; was very weak; had no appetite and suffered continually with sharp pains in the back and loins.

I had tried every imaginable remedy; three doctors treated me, but did not even give relief. I am a thousand times grateful to the friend who advised me to use Dr. Chase's Kidney-Liver Pills. They are indispensable and invaluable. All my neighbors who knew how bad I was are astonished at the wonderful effects of this treatment and many are using these pills with equally good results."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto. To protect you against imitations, the portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box.

KILMARNOCK

Best of Them All.

A prominent dealer, who caters to the best trade in the city, said today: "The demand for KILMARNOCK is constantly increasing, and more of this Whisky is called for at our place of business than any other brand." He said further, that the demand for Kilmarnock was from the very best class of people, who are judges of Whisky. Enough said this time.
